TEHERAN STREETS DYED WITH BLOOD

One Thousand Nationals Enter Persian Capital and Fighting Begins.

LIBERAL FORCES IN CENTER OF CITY

Fighting is Conducted at Long Range and Firing is Desultory.

Teheran, Persia, July 13.—One thousand nationalists entered Teheran at 5 o'clock this morning. They came in by three gates and the entire northern section of the city was soon in their hands.

There has been some fighting in the streets, but as a general thing the nationalists are preserving excellent order. They are sending out patrols through the city.

The shah is expected momentarily to take refuge in one of the foreign legations.

The royalist troops, particularly the Cossacks, have taken up a position in the central square and surrounding streets and it is believed the nationalists will attack their position in full force if they do not surrender.

Foreigners Are Safe.

The safety of foreigners does not appear, at this writing, to be seriously threatened.

Sipapdar and Sardahasa, the nationalist leaders, are in possession of the armament building. A body of local nationalists, under the leadership of young Seyed, have taken possession of the residence of Saad-ed-Dowleh, the foreign minister. Many of the royalist soldiers, including a number of Cossacks, have deserted to the nationalists.

The populace of the city is enthusiastic over the advent of the nationalists forces. They throng the streets wearing red badges and offering encouragement to the revolutionary soldiers.

Outbreak of Firing.

There was a sharp outbreak of rifle fire this morning near the British legation, but it did not last long and the casualties among the nationalists were slight. The nationalists are in possession of the central offices of the Persian internal telegraph system. The Indo-European telegraph line, the outlet to London, is still working, but with difficulty. Royalists and nationalists are fighting in the square in front of the offices of the company, which are under fire.

Shooting at Long Range.

The fighting in the streets continued until past noon, but it was mostly at long range, desultory, and not very destructive nor decisive. There has been no attempt to interfere with any of the legations or the British or Russian banks, and the lives and property of Americans and Europeans were not in danger.

The Russian flag was flying from the house of Col. Liakhoff, the military commander of Teheran, where Mme. Liakhoff courageously persists in remaining. The house is close to the square where the Cossacks were opposing the advance of the nationalists, and both it and the flag were exposed to the bullets of the combatants.

FOUND GIRL'S BODY; HER COMPANION MISSING

Mysterious Drowning in a Lake at Sturgis—No Trace of Man.

Kalamazoo, Mich., July 13.—Mystery surrounds the drowning last night in Klinger lake, St. Joseph county, of Miss Mattie Davey, of Chicago, and the probable drowning at the same time of Claude Hunt, a young farmer living near Sturgis, with whom Miss Davey had gone out boating.

Miss Davey, who was 22 years old, had been visiting at Klinger lake recuperating from a long illness. She had met Hunt since her arrival.

Threatened to Drown Herself.

Henry Miller, proprietor of the hotel at the lake, says that several times Miss Davey told him she was going to drown herself and "end it all."

Last night about 6:30 o'clock Hunt and Miss Davey endeavored to rent a row boat. Proprietor Wall states that he refused them as he did not consider Hunt competent to manage a boat. The young people, however, secured a boat elsewhere.

An hour later J. Latham Warren, of Chicago, who was out in a launch noticed a rowboat anchored. He approached it and found the body of Miss Davey floating alongside, face downward.

No Trace of Man.

There was no trace of Hunt. Miss Davey's body was taken from the water. Hunt's body has not been found.

Whether Miss Davey jumped from the boat with suicidal intent and Hunt followed her in an attempt to rescue the girl, both perishing, or whether an accident of some sort threw both into the water is only speculation. The failure to find Hunt's body adds to the mystery.

Miss Davey's father arrived from Chicago today and took charge of her body

MAKING OUT GOOD CASE FOR SLAYER

Witnesses Give Strong Testimony of Harry Thaw's Present Sanity.

MEN SAY HE HAS ACTED RATIONALLY

Jailer Who Had Him in Custody Did Not Fear to Leave Him Alone.

White Plains, N. Y., July 12.—Evelyn Nesbitt Thaw, subpoenaed by the state, which is opposing her husband's release from the Matteawan asylum for the criminal insane, took the stand today as a witness at the hearing in the supreme court here on Harry K. Thaw's mental condition.

White Plains, N. Y., July 13.—Deputy Attorney General Clark announced today at the resumption of the inquiry into the present mental condition of Harry K. Thaw before Justice Mills that Drs. Austin Flint and Carlos B. McDonald would be the alienists called by the state to examine the plaintiff, according to Thaw's own suggestion.

Dr. Amos B. Baker, assistant superintendent of Matteawan asylum, who had Thaw under observation, will make up the trio of experts for the state.

Thaw's counsel said he was not ready to announce the names of the plaintiff's alienists until he had further conferred with his client.

It was said that Thaw would submit to an examination at the hands of the state's experts at the close of lay testimony in the case. Deputy Attorney General Clark said this morning that he had no definite assurance that Evelyn Nesbit Thaw, the plaintiff's wife, would appear in court today in answer to the state's subpoena.

Edward Havens, a keeper at the Poughkeepsie jail who saw Thaw daily when he was confined there, was recalled to the witness stand at the opening of court today and testified that the prisoner appeared entirely rational in his speech and actions as he had observed him.

Jailer Leaves Him Alone.

On cross examination District Attorney Mack, of Dutchess county, got the witness to state that he had left Thaw alone at various times when the prisoner was in his charge, although the keeper knew the sheriff had said he feared Thaw might attempt to escape.

Questioned by Mr. Morschauser Thaw's counsel, the witness said he had never known of Thaw attempting to escape, had had no fear that he would try to get away, and was confident that he could be trusted, and if he had thought Thaw was insane he would never have left him alone a moment.

W. W. Smith, of Poughkeepsie, who is over sixty years old and who admitted smilingly that he was known in Poughkeepsie as a philanthropist testified that he had met Thaw on two or three occasions and talked with him on religious topics.

"I told him we were brother men and should try to alleviate each others troubles and sorrows," the witness said.

Thaw Knew His Bible Well.

"I told him I was one among many who were friendly to him. He told me he was a Presbyterian and we talked about the bible and Christ's sympathetic attitude toward sinners. Mr. Thaw appeared to be very well read and have a good knowledge of the bible. His conversation was very rational."

Otto Metz, a New York court officer and former keeper in the Tombs prison testified he frequently talked politics with Thaw.

"He certainly convinced me that the silver question and Bryanism would be a bad thing for the country" said the witness.

Deputy Attorney General Clark objected to the answer and Justice Mills instructed the witness to confine himself to the actual conversation between himself and Thaw. The witness said Thaw told him he thought Roosevelt was a "strong man" and made a good president.

When Joseph Hudson, an old Long Island railroad conductor was testifying dignity and solemnity of the court proceedings were considerably ruffled by the boisterous laughter he created at times with his droll answers and side remarks.

Wanted to Know.

Mr. Hudson said he had had four or five hours' conversation with Thaw all told, principally on railroad matters. "To tell you the truth of the matter" said the witness, "I wanted to find out whether or not he was insane and asked him all kinds of questions to draw him out."

Thaw and the judge joined in the general laugh, which this unsolicited statement by the witness created.

The witness said Thaw showed a remarkable knowledge of railroading.

"I have probably met more men in my life than any man in this court room" Mr. Hudson volunteered, "and have had a pretty good schooling in human nature and have seen many insane men, but there was nothing irrational about Thaw."

On cross examination District Attorney Mack wanted to know of the witness if Thaw had ever touched upon the killing of Stanford White in their conversations. The witness said no, but that he personally believed it was "an act of providence."

"Why didn't you question Thaw about that?" asked Mr. Mack.

"You might as well ask me why I had not been in heaven" said the witness. "I don't know."

J. P. Karr and family have arrived in the city and will make Fort Wayne their home. Mr. Karr is identified with the new American Steel Dredge company.

HOLDS PROTECTION DOES NOT MEAN EXTORTION

Beveridge Declares He Has Worked for Redemption of Party Promise.

Indianapolis, July 13.—Senator Albert J. Beveridge was given a public reception at Tomlinson hall here last night, the affair being planned by the Indianapolis Taft club in recognition of the senator's work on the tariff bill.

"I do not take this demonstration as a personal compliment," said Senator Beveridge in a brief address, "but I take this gathering as the people's expression on a vital public question."

Senator Beveridge then quoted President Taft as saying: "Revise the tariff downward."

"That was not his promise," said the senator; "that was the promise of the republican party voiced by him. I am one of those who believe that the most serious thing beneath the sun is a promise made between man and man. I am for protection. I believe that the American people are for it, but to be a protectionist does not mean that we are to be extortionists. When a tariff rate goes beyond the point of protection it becomes an excess."

After the speech-making Senator Beveridge was presented to most of the people in the hall.

HERE TO TAKE UP A SETTLEMENT OF SHORTAGE

Bonding Company Prepares to Pay the Detzer Defalcation.

E. J. Schoonover, of Indianapolis, state agent of the Aetna Indemnity company, of Hartford, Conn., which was on the bond of E. N. Detzer, defaulting teller of the First National bank, arrived in the city this morning and together with M. J. Blitz, the local representative of the company, took up with the bank officials the preliminary steps to an adjustment of the matter. The company was on Detzer's bond in the sum of $5,000.

Another Apparent Shortage.

Mr. Detzer was master of exchequer of Phoenix lodge, No. 101, Knights of Pythias, and the auditing committee made a report at the meeting Monday evening to the effect that there is an apparent shortage of $98.35 in the lodge funds under Detzer's care. This is determined by the bank balance, but it is explained that the mere fact that the funds are not on deposit does not necessarily imply that he is a defaulter, and that until it is shown that Mr. Detzer does not respond with the balance of the funds in response to the formal demand made upon him by the lodge last night, no action will be taken toward referring his case to the bonding company. He gave a bond to the lodge in the sum of 1600.

George Pantazin was elected master of exchequer by the lodge Monday evening to succeed Mr. Detzer.

Mrs. Edward Nulf, of East Creighton avenue, will entertain the East End Embroidery club tomorrow afternoon from 2 to 4 o'clock.

SMASHING AWAY AT GIRL'S STORY

Witnesses Still Further Swear That Ella Gingles is Dreamer.

WAS POSSIBLE TO HAVE BOUND SELF

Man Who Found Her Says So—Nerve Specialist Has Pick at Her.

Chicago, July 13.—Ella Gingles' fate may be in the hands of the jury by Friday night, according to the belief of Assistant State's Attorney Short. Upon resuming the presentation of rebuttal testimony today Mr. Short said that he had but half a dozen more witnesses to examine. Whether the evidence will be all in at the time predicted by Mr. Short depends, of course, on Mr. O'Donnell, attorney for the young lace maker. Mr. O'Donnell said today that he would put a number of experts on the stand to refute the state's medical testimony and also a number of club women who have interested themselves in the defense.

Hotel Carpenter Found Her.

Benjamin Bronson, carpenter at the Wellington hotel, who first found Miss Gingles in the bath room, testified that in his opinion he could have tied himself as the girl was tied.

"When you found you could not open the bath room door, what did you do?" asked Mr. Short.

"I got a ladder and peeked over the transom into the room. I saw a woman lying on the floor and feared she was dead. I climbed down and forced the door. She was bound to the tub. There was plenty of blood about and she was partly naked. I reported to the office and then came back with Dr. Watson and cut the bonds.

"Could you have tied yourself as she was tied?"

"I believe I could."

SCION OF AUSTRIAN ROTHSCHILD HEAD A SUICIDE

Oskar, Son of Baron, Banker of Vienna, Crossed in Love Affair.

Vienna, July 13.—Baron Oskar Rothschild, the youngest son of Albert Rothschild, head of the Austrian branch of the Rothschild house, died suddenly in this city last night.

He committed suicide by shooting himself in his father's palace, because of an unfortunate love affair.

Baron Oskar was 21 years old. He returned to Vienna two days ago after eighe months spent in travel, during which he visited the United States.

THE WEATHER.

Chicago, July 13.—Forecast for Indiana, Illinois and Lower Michigan: Generally fair Tuesday and Wednesday; not much change in temperature.

For Ohio: Generally fair tonight and Wednesday.

SCHWIER WILL MISS FIRST COUNCIL MEETING

President of Body Out of the City—Track Elevation Ready.

The most noticeable feature at the regular meeting of the city council this evening will be the absence of President William C. Schwier, who is in Los Angeles at the Elks' convention and who will be absent for the first time at a regular or called session since he took his seat three years ago last January.

Vice President Marion B. Johnson will have the honor of serving for the first time, although he is on his third year as second officer of the body. Track elevation resolution No. 1, providing for separation of grades at Calhoun street and Fairfield avenue, will be up for its final approval by the body. It will probably go to the committee of the whole and will have to lie over fifteen days after its approval before further action can be taken.

The ordinance appropriating $17,000 for the extension of the electric light service of the municipal plant will be up and as it has been approved by the finance committee it will likely pass. The resolution declaring the sidewalk on the south side of Creighton avenue, from Broadway to Calhoun street, will also be up.

BURGLARS IN VISIT TO HARLAN GET LITTLE

Secure But Little More Than $9 in Raid on Three Business Houses.

Burglars operated at Harlan, this county, Monday night, but they secured only about $9 as the net proceeds of a raid on three of the business houses in the village.

Several money drawers in the general store of C. C. Diehl & Son were broken open, and about $9 was collected. A gum-vending machine in George James' store was raided of its pennies, but the amount taken is unknown. Nothing else was disturbed there.

The room occupied by Postmaster Mack as postoffice, shoe shop and stationery store was also visited. The cash drawer in the store was broken open, but it was empty and yielded nothing. A few cents in change in the postoffice cash drawer was not molested.

There is a belief in Harlan that the burglars were frightened away at 1 o'clock before they had completed their work by a man who was summoning a doctor.

THE PLAGUE IN CHINA.

Amoy, China, July 13.—It is officially reported today that 174 deaths from the bubonic plague and thirty-six deaths from cholera occurred here during the two weeks ended last Monday.

WOMEN PLAY SEMI-FINALS.

The semi-finals in the ladies' golf contest for the Breen cup will be played off tomorrow afternoon. The pairs will be Mrs. Fred Seelhoff and Mrs. Henry Bruggeman; Miss Emily Hoffman and Miss Mary Knight.

LET THE PEOPLE ELECT SENATORS

Second Amendment to Federal Constitution Urged by Bryan.

WRITES A LETTER TO THE PRESIDENT

Tells Mr. Taft He Will Do All He Can to Get the States to Ratify.

Lincoln, Neb., July 13.—William J. Bryan today addressed a letter to President Taft asking him to allow the people to vote on popular election of senators. Mr. Bryan says:

President Taft: Now that the states are going to vote on the ratification of the amendment specifically authorizing an income tax why not give them a chance to vote on an amendment providing for the election of United States senators by popular vote? In your speech of acceptance you said that you were personally inclined to favor such a change in the constitution. Would not this be an opportune time to present the subject to congress? Two constitutional amendments, one authorizing income tax and the other providing for the popular election of senators, would make your administration memorable and I pledge you whatever assistance I can render in securing the ratification of these amendments. With great respect, I am,

Yours truly,
WM. J. BRYAN.

WORK OF THE CONFEREES.

Washington, July 13.—When the conferees on the tariff bill began work today it was with the knowledge that amendments to the lumber schedule, over which a contest was certain would be reached before adjournment. The house members were expected to make the strong fight for "dollar lumber" which was defeated in the senate.

In view of the fact that the lumber amendment will require a deal of consideration it is believed that after the discussion hascontinued for a time the whole subject will be put over until another day and the conferees will dispose of minor amendments.

The conferees have decided to clear up the disputes over matters of little importance before becoming entangled over the really serious differences.

A recess was taken by the conferees at 1:20 p. m. for luncheon. The first reading of the bill for the consideration of amendments had proceeded about half way through the flax or linen schedule. Practically all of the disputed amendments were passed over. The cotton schedule was not taken up.

WANT RAILS PROTECTED.

Washington, July 13. — Senator Shively, of Indiana, today presented to the senate a telegram from the Indiana Steel company, located at Gary, Ind., protesting against the proposed rate of $3.92 on steel rails per ton. The telegram represents that if that rate is maintained it will be impossible for inland companies to compete with foreign manufacturers at coast points.

WILL SPEND $5,000 IN DECORATING CATHEDRAL

Scottish Rite Building Committee Awards Contract to Chicago Man.

An extensive decorating contract that will require the expenditure of between $4,000 and $5,000 was let by the building committee on the Scottish Rite cathedral and Architects Maburin and Maburin to Gustave A. Brand, of Chicago, at a meeting Monday evening at the John H. Bass home. The contract is one of the largest ever awarded in this city and insures that the interior of the building when completed will be one of the most beautiful in the country.

The color schemes through-out the building are to be various but all will be carried out to develop the architectural lines of the rooms and to emphasize the size. The consistory work room and the social room in particular are to be made most attractive and paintings of the rooms as they will look give evidence of great taste in the decorator. All the work is to be in oil.

One of the principal features of the decorative interior will be a mural painting in the entrance vestibule. The figures are to be in allegorical composition of charity and symbolical of the work and purposes of the Scottish Rite order.

It is not thought that Contractor Brand will be able to get to work until September or October, as the decorating work will be the last thing completed.

The members of Encampment No. 51, Union Veteran legion, will entertain their national commander, General T. J. Shannon, this evening.

MURDER CHARGE AGAINST MOTHER

Mrs. Bump, Who Gave Babe Strychnine, in Lutheran Hospital.

SHE IS NOT INSANE; JUST TIRED OF LIFE

Woman's Effort to Die by Carbolic Acid Fails—A Rural Tragedy.

With the filing tomorrow of an affidavit charging Gertrude Bump with the murder of her son, Robert Russell Bump, who was four months old on the eighth of July, another chapter in the tragic crime in which a discouraged mother sought to send her baby boy to eternity and to follow his little soul with her own will have been closed.

The affidavit was prepared today by Prosecutor Albert E. Thomas but he desired that Sheriff A. M. Reichelderfer sign it and as the latter was absent in Indianapolis no action was taken. This, however, is not the only reason. The baby boy was borne this morning to his last resting place on earth followed by the half distracted father while the mother lay in the Lutheran hospital suffering from the effects of the carbolic acid she swallowed with no certainty that she might not yet go out into that big unknown world in search of the baby spirit.

Sorrowing neighbors congregated at the Bump home this morning to attend the funeral of the child and in Lafayette township, where Ralp Bump had lived all his life, there was the most profound sorrow mixed with wonderment that the patient wife had attempted a double crime.

Early this morning the mother, who had been under the watchful eye of Deputy Sheriff Walter Immell all night long to prevent a second attempt at self destruction, was conveyed in charge of the officer to the hospital, where she has since been carefully guarded as she insists that she will yet end her life. Former Sheriff Albert E. Melching was in charge of the ambulance and he said that in all his experience he had never witnessed a scene as pathetic as that enacted this morning in the humble home of the parents.

Refused to Come to the City.

All through the night the suffering woman lay tossing and moaning but after her statement to the coroner in which she admitted that she had administered three one-eighth grain morphine tablets to her baby, that she did it with the intention of ending her life and that she afterward drank part of the contents of a four-ounce vial of carbolic acid she said nothing of her motives for her crime.

The weeping husband sat beside his spouse all night and aided the officer, in his attempt to persuade her to allow herself to be taken to Fort Wayne, but she steadfastly refused and although she was practically a prisoner, the deputy sheriff did not want to force her to leave her home.

Eventually she consented under condition that she be allowed to see the dead body of her little one. Mr. Melching took it from the baby cab in which it had been placed after its preparation for burial and put it in the arms of the mother. This was followed by a scene so pathetic that the strong men standing about the bed made no attempt to conceal their emotion or the tears that flowed down their cheeks.

Clasping the lifeless little form to her breast she covered the cold face with her warm kisses and her tears and exclaimed time after time "Oh my sweet baby" and repeating this cry she flung her arms about the neck of her husband and sobbed upon his shoulder but not once during all this time did she give vent to one single expression of regret.

This seemed to satisfy her and at 6:30 o'clock the ambulance bearing the wife and mother left the home and arrived at the hospital in Fort Wayne at 9 o'clock.

Just Tired of Living.

Mrs. Bump both before and after the crime, which was committed about 8 o'clock Sunday night, seemed as rational as she had ever been in her life. She is evidently a disappointed

ELKS GRAND LODGE BEGINS WORK OF SESSION

Result of Election Will be Made Known Some Time This Evening.

Los Angeles, Cal., July 13.—The first session of the grand lodge of Elks was held today in the auditorium theater. Between 1,400 and 1,500 members were in attendance. The contest for the office of grand exalted ruler has been a spirited one and the result of the count of ballots is eagerly waited for today. The count will be announced late tonight.

Tomorrow the visitors will be entertained at Long Beach. Every state in the union will be represented among the 50,000 Elks now in Los Angeles. It is estimated that altogether the event has attracted 700,000 visitors to the city. The last of the delegations came in today from the east.

BOUGHT MACHINE IN TIME TO DRAW LAWSUIT

Representative Roggen is Sued by Wiedeman—The Courts.

Adolph Roggen has been sued in the superior court by Joseph Wiedeman, who demands $1,500 damages for injuries alleged to have been sustained by being run down by an automobile. The accident occurred on June 1, and Mr. Roggen, who is a representative for Allen county in the legislature bought the machine the day before.

The automobile formerly belonged to Conrad Bause and Wiedeman brought suit against him and learned afterward that he had sold the machine the day before it ran him down. Wiedeman says he was crossing Wallace street at Clay and that the automobile came tearing along at twenty miles an hour and knocked him down. His left arm was broken, fingers on his left hand fractured, his face was scraped and bruised and he sustained internal injuries. P. B. Colerick filed the suit.

Hines Wants Divorce.

John Hines today filed a cross complaint in the divorce suit entered by Esther Hines against him some time ago and says that when he married her he was tending bar for her father on West Main street and that he courted her a year before he won her. He says also that although her mother said she was eighteen when he married her she was younger although the mother signed a written statement which was presented to the clerk of Wells county.

He says he supplied her with a good home, plenty of clothes and spending money, that she went to the theater with her friends and finally wanted to go on the stage. He says he never mistreated her but says she went to the home of her uncle, Charles Monsdorfer, who he charges with being a man of immoral character, stayed alone with him in the house at night, went riding with him and refused to mend his clothes. Emrick and Emrick filed the complaint.

Charges Desertion.

In her suit for divorce against James Seymour, Mary Seymour alleges that he deserted her in July, 1907, after a married life of two years and made no provision for her support. Robinson, Luecke and Geake filed the suit.

Big Case is on Trial.

The suit of William Cass against Samuel R. Alden and wife was placed on trial before Judge S. E. Cook in the superior court today. The forenoon was taken up with motions and preliminary legal sparring.

IN SHOAFF BUILDING.

Woodworth Drug Store to Go Back to Near Old Location.

Benjamin Woodworth has just closed a contract for a Calhoun street room in the Shoaff building for the Woodworth drug store. This will place the store back within a few feet of the very site which it so long occupied in the Aveline house building.

Attorney Edward G. Hoffman attended to some business matters today at Huntington.

LAKE STEAMERS IN CRASH; FOURTEEN MEN LOST

Steel Vessels Collide in a Fog Near Whitefish Bay and One Sinks.

Sault Ste. Marie, Mich., July 13.—Three minutes after the steel steamers Isaac M. Scott and John B. Cowle had collided in Lake Superior early yesterday morning, about a mile and a half off Whitefish Point lighthouse, the Cowle had gone to the bottom in fifty fathoms of water, carrying with her fourteen members of her crew. The Scott, although badly damaged about the bows, put back to this port, where she arrived this afternoon with part of the crew of the Cowle.

A heavy fog was responsible for the collision. The Scott, a new boat on her maiden trip to the head of the lakes, had just passed the light at Whitefish Point, and straightened out her course up the lake, when suddenly the John B. Cowle loomed up through the fog, broadside on to the Scott and only a few feet away. The Cowle was down-bound with 8,000 tons of iron ore in the hold.

Collision Could Not Be Avoided.

The ships were so close that it was impossible to avoid a collision, and the Scott crashed into the side of the heavily laden Cowle. For fifteen feet the bow of the Scott penetrated the side of the Cowle. Tons of water rushed into the great opening and in three minutes the Cowle had settled to the bottom of Lake Superior.

Immediately after the collision a line was thrown from the deck of the Scott to the forward deck of the Cowle, and three members of the crew escaped to the deck of the up-bound boat by this means.

The rest of the crew who were saved jumped from the sinking steamer into the lake, some without life preservers, and were picked up by the Scott and the steamer Goodyear, which was a short distance astern of the Scott when the collision occurred.

Captain Rogers, of the Cowle, was one of those who were rescued by the Goodyear and he was taken on up the lake by that steamer.

MURDER CHARGE AGAINST MOTHER

[Continued from Page One.]

woman and her burdens weighed heavily upon her. She is twenty-eight years old and a daughter of Mr. and Mrs. Bruce Merchant, of Zanesville, Ind., and a brother, Hershel Merchant, is employed by the Fort Wayne and Wabash Valley Traction company.

For some time her actions have been a ground for the suspicion that she contemplated suicide although she had made no other threat than to say that there was nothing to live for and that she had made a mistake in her marriage that it was too late to remedy. Mrs. Merchant was with her daughter until Thursday of last week and was there because she feared that the condition of her health might tempt her to end her life.

She complained that the baby, who was a healthy little fellow, demanded more sustenance from her than she could stand and was greatly depressed.

In the family circle there were, according to the admissions of the husband, what he termed "squals" now and then and one took place about a week ago but they had always blown over without any serious results. The Bumps had been married ten years and in addition to the boy that met his death there are two others five and three years old.

The family lived in a house on twenty-five acres of land that belongs to Bump's father. The house is a two-story affair, old and dilapidated, to which had been added a "lean-to" to prevent it from being blown down. The house is located in Lafayette township about fifteen miles southwest of Fort Wayne.

Spent Day With Sister.

Sunday the Bump family celebrated the end of a week of hard work in a family dinner at the home of James Hamilton. Mrs. Hamilton is a sister to Mrs. Bump. When they returned in the evening the wife prepared her baby for bed and then took three or five morphine tablets that had been given her by her physician to allay labor pains at the time her baby was born, dissolved them in water and administered them to the child.

Then she put the baby in bed and undressed. A few minutes afterward she called to her husband and told him she had taken carbolic acid and she stood waiting for him, still holding the bottle in her hand. He snatched it, put the cork in and threw it into a field, fearing she would drink more. She lapsed into unconsciousness shortly afterward and he called Dr. Koons from Roanoke.

The doctor's wife accompanied him on the trip and while he was attending Mrs. Bump the trained ear of the physician's wife detected something wrong with the breathing of the baby, which was in another room. She went to the baby cab in which it was lying and called her husband, who discovered that a drug had been administered. He worked with the child until 2 o'clock this morning, when it died.

Heroic work all night finally restored the mother to consciousness and she expressed regret with her first gleam of her surroundings that she had not gone with her baby. The following note was left and explained the crime:

"I'm tired of living so bury my darling in my arms. I can't go and leave him; there is nobody to take care of him that is able, so boodbye to all; goodbye."

The carbolic acid, according to the story of the wife, was obtained by her husband some time ago and when the bottle was found the fluid was tinged with red, which indicated that it was old and had been exposed for some time to the light. The bottle had been out in the rain Sunday night and yesterday afternoon and if there ever had been a label on it, it had been washed off.

Mrs. Bump said her husband had obtained it last fall when his hogs suffered from cholera, but he could not recall the circumstances and said he had never seen it about the house. When she was asked why she had not given the baby the acid she said she could not bear to see him suffer. The bottle still contained about two-thirds of the four ounces it had originally contained.

Mother is Not Insane.

In the opinion of the officers who visited the home the mother is not insane and her action is rather the result of depression because the family was poor and she could see nothing ahead of her but hard work and more children. She indicated that she loved her little flock, but each one added weight to her burden and she concluded it was more than she could bear.

She realized that the little fellow needed a mother's care and this was one reason that prevented her from taking her life before. Finally she concluded to take the child with her on her journey to another world. Although she insists that she had no idea of committing the crime until a few minutes before it was perpetrated, disclosures made by members of the family indicate that she had and that her mother had reason to believe she would commit suicide.

Charged With Murder.

The affidavit to be filed against the mother will charge murder in the first degree, although there is an absence of the element of malice which, under the law, may be supplied by the fact that she killed her little one. She is still in charge of Deputy Sheriff Immell, who will be given the task of preventing her from carrying out her threats.

As soon as the coroner communicated the facts to Prosecutor Albert E. Thomas he left for the scene, accompanied by his deputy, Harry Hilgemann, and both put in several hours gathering the facts in the case so that they will be prepared, in event the mother recovers and is brought to trial.

The husband remained at home until after the funeral of the baby, which took place at 10 o'clock this morning, and then came to Fort Wayne to be at the bedside of his wife.

Dr. J. A. Kessler took the statements of several witnesses and secured the admissions of the wife, but will not begin taking testimony in his inquest until tomorrow.

MR. SCHMIDT STARTS THE NOON SHOP MEETINGS

Mayoralty Aspirant in Talk to Pennsy Workmen—Political Chat.

Noonday shop meetings in the skirmish preceding the city primaries were inaugurated today when August M. Schmidt, one of the aspirants for the democratic nomination for the mayoralty, delivered the first of a series of talks to workmen at the Pennsylvania shops.

Each of the candidates for mayor has been holding ward meetings all over the city, and some of them have already addressed the voters in every ward. These meetings have been announced quietly by passing out the word to supporters in the various districts. Today, however, Mr. Schmidt got into the battle with posters announcing his shop meeting.

* * *

Louis S. C. Schroeder today made announcement that he will be a candidate for the democrati nomination to the city council from the Fourth ward. Mr. Schroeder has been an active democratic workers for many years, and he concluded to be a candidate after a delegation of his Fourth ward fellow citizens had waited upon him and urged it.

* * *

Regarding the action by the Fort Wayne Federation of Labor last evening regarding the candidacy of Mr. Scherer for mayor, President L. D. Redding explains that Mr. Scherer was not endorsed, but merely commended to union labor as a candidate for the mayoralty. President Redding holds that the federation cannot legally endorse any political candidate, and he ruled to that effect at a previous meeting. The word "endorse" does not appear in the resolutions adopted by the federation.

* * *

Herman Strodel, a well known Ninth ward democrat, has announced his candidacy for the city council from that ward. Mr. Strodel is now employed as a meat cutter at the Coverdale & Archer company meat market.

It is said that Capt. Harry Clark, of battery B, may be a candidate for city clerk on the republican ticket.

POLICE COURT CASES.

Negro Woman Got Impudent and Drew Ten Days.

Blanche Curry was in the city court this morning along with Mable Franks and May Hartman and all were fined $5 and costs for prostitution. The Curry woman is a negro and got only a fine until she became impudent and the court added ten days. George Young, who was arrested with them, was fined $10 and costs.

John Dismuth was fined $1 and costs for drunkenness and Robert Ward is held on a charge of loitering until the police find out how he lives without working.

BOY'S SKIRTS CAUGHT FIRE.

Three-Year-Old Paul Leitz Burned About Neck and Face.

Paul Leitz, the three-year-old son of Mr. and Mrs. Edward Leitz, of Michigan avenue, is suffering from some painful burns about the neck and sides of the face sustained Sunday afternoon when the boys' skirts caught fire while he was poking the wood fire in the kitchen stove with a stick. The mother had left the room but an instant before, and upon hearing the screams of her little one, ran to him and smothered the flames. No permanent disfigurement is anticipated from the burns.

THE BIRTH STATISTICS.

Born, to Mr. and Mrs. Charles Dean, of Huestis avenue—a son.

Born, to Mr. and Mrs. Joseph Hutty, of New Haven—a daughter.

WILLIAM K. NOBLE ARRESTED.

William K. Noble was arrested this afternoon by Marshal Hester of North Manchester on a charge of auto speeding at that place Saturday.

WAS BORN IN ALLEN COUNTY SEVENTY YEARS AGO

Joseph L. Sorg, a Prominent Farmer, Dies in Marion Township.

Joseph L. Sorg, pioneer resident of Marion township and one of the wealthiest farmers of Allen county, died at 4:40 o'clock this morning at his home in Marion township, nine miles south of Fort Wayne. Mr. Sorg was 70 years of age, and his death was due to Bright's disease after an illness of three weeks.

The deceased was a lifelong resident of Allen county and an excellent citizen who was widely and favorably known. He was born at Hesse Cassel, December 23, 1839, the son of Michael Sorg, one of the earliest residents of this region, whose death occurred twenty years ago. The son grew to manhood in Allen county and enlisted as a soldier in company K, Ninety-first Indiana volunteers, serving with distinction to the close of the war. His marriage occurred January 9, 1866, to Miss Mary Hoevel, Rev. Father West solemnizing the ceremony. Mr. Sorg devoted his life to farming, and his industry, thrift and integrity found compensation in marked accumulation of wealth and in the respect and esteem of all who knew him.

Surviving relatives include the wife and five sons and four daughters. The sons—John M., George, Henry B., Louis J. and Joseph L. Sorg—all reside on farms near the old homestead. The daughters are Mrs. Ed Allgeier, of Adams township, and the Misses Minnie, Barbara and Regina Sorg, at home. There are also six brothers and three sisters—Theodore, John, Anthony, Charles, Michael and Henry Sorg, Miss Julia Sorg, Mrs. William Suelzer, Fort Wayne; and Sister Mary Modesta, of Sun Prairie, Wis. Mr. Sorg was a member of the Rosary and School societies as well as of the congregation of St. Joseph's Catholic church at Hesse Cassel.

Funeral services Friday morning at 9 o'clock from the residence and at 10 o'clock from St. Joseph's church at Hesse Cassel.

FUNERAL NOTICES.

O'Brien.—Funeral services of Albert J. O'Brien will be held Thursday morning at 8:30 o'clock from the residence, 736 West DeWald street, and at 9 o'clock from St. Patrick's Catholic church.

GLIDDEN TOURISTS CUT CORNER OF INDIANA

Run Through South Bend and Valparaiso from Kalamazoo to Chicago.

Kalamazoo, Mich., July 13.—With a run of 175 miles ahead of them, the thirty automobiles which are making the Glidden tour began leaving the control here at one minute intervals after 7 o'clock this morning. Pathfinder D. H. Lewis had preceded them at 5:30 o'clock with his confetti car and Pacemaker Hower left fifteen minutes ahead of the first contestant in his machine. The official time for the day's run to Chicago is eight hours and forty minutes. The automobiles will pass through Dowagiac and Niles, Mich., and South Bend, Laporte and Valparaiso, Ind.

REACH SOUTH BEND.

South Bend., Ind., July 13.—The Glidden tourists reached South Bend at 9:45 o'clock this morning, entering the city from the north, the turn southward being made at Niles, Mich. The control and oiling station in Lehr park was thronged by hundreds of automobile enthusiasts. The Studebakers presented each car with a lunch box as soon as they reached the city. The cars passed on through South Bend to Laporte, escorted by several local machines. The run so far today has been without incident.

SMASHING AWAY AT GIRL'S STORY

[Continued From Page One.]

"Were her hands tied so she could move them?"

"Yes."

Nerve Specialist Testifies.

Dr. W. O. Krohn was called to the witness stand for the prosecution. He said he was a specialist on nervous and mental diseases. He testified that he went to the Frances Willard hospital in company with Assistant State's Attorney Sherman and Detective Bell to see Miss Gingles. He told of the conversation that was held and stated that he examined the girl. In describing her condition he said: "I noticed a tremor in the large muscles. I looked at the pupils of the eyes and found them in normal condition. Then I tried the knee reflex and I found her to be normal. I made her hold up her hands to see if she was nervous and found that her fingers trembled only slightly. I also found a slight quivering of the tongue."

"Now, doctor, was the trembling voluntary or involuntary?"

"The trembling of the large muscles was voluntary, but the slight trembling of the tongue and fingers was involuntary."

"That, however, is normal, isn't it?"

"Yes."

"How did she act when you touched her wounds?"

"Why, when she was looking she would scream with pain. When her attention was distracted she did not show any signs of pain."

WRIGHT AEROPLANE MAKES PRETTY FLIGHT

Brief But Brilliant Trial of Machine is Given at Fort Myer.

Washington, D. C., July 13.—Orville Wright last evening made a successful flight in the Wright aeroplane at Fort Myer, Va., remaining in the air five minutes and thirty seconds.

During this time the machine attained the exceptional speed of about forty miles an hour and circled the parade grounds half a dozen times, a total distance of about three and a half miles.

After keeping a crowd of nearly a thousand expectant persons, including a number prominent in official life, waiting for an hour and a half on account of unfavorable wind conditions, the aeroplane started on its flight at 7:07 p. m. The aviator concluded not to prolong the trial because the motor of his machine, which had just been repaired, was not working perfectly. Each time the aeroplane circled past the starting point the spectators cheered.

Breeze Prevents Earlier Start.

A strong breeze prevented the Wright brothers from starting the aeroplane immediately after it was brought from the shed at 5:30 and they awaited more favorable conditions before attempting a flight. They examined the machine carefully and chatted with prominent persons who had gone over from Washington to witness the trial. Among these were Count von Bernstorff, the German ambassador; Mrs. Nicholas Longworth and Secretary of the Navy Meyer.

Others congrregated about the machine were the Mexican ambassador, Francisco de la Barra, and the Mexican military attache, Maj. Fortino Davila; Senators Lodge, La Follette and Shively, Joseph Leiter, Congressman Ransdell, Assistant Secretary of State and Mrs. Huntington Wilson, and Second Assistant Secretary Phillips.

Ascent is Made Gracefully.

Shortly after 7 o'clock the breeze died down sufficiently to permit a flight. Men of the army signal corps drew up the heavy weight used for starting, and the rope attached to it was fastened to the aeroplane. The motor was started and Orville Wright mounted into the seat. When the signal was given the machine shot forward instantly and mounted gracefully.

Mr. Wright guided the flyer to the lower end of the large parade ground and circled around toward the starting point gradually rising higher. Applause greeted him as he passed the starting point and sped away on the second round.

Six times he rounded the course. After passing the crowd the sixth time, the aviator decided to make a landing because the motor occasionally was missing a spark. He descended easily and alighted with no apparent jar, the machine sliding smoothly over the ground until it came to a stop at a point near the shed.

Wrights Pleased With Performance.

Both of the Wrights expressed themselves as pleased with the performance. They intend to make only short flights until the new bearings have become worn down and the propelling motor is working perfectly. When these things have adjusted themselves to the satisfaction of the aviators they intend to attack their main task, to which these minor flights are preliminary—that of satisfying the conditions prescribed by the government for the official test.

BLERIOT TRIES FOR PRIZE.

Etampes, France, July 13.—M. Bleriot, one of the French aeronauts who is planning to fly across the English channel, left here this morning in his aeroplane on a cross country flight in an attempt to reach Orleans and win the French Aero club prize of $2,800. The distance is twenty-five miles in a straight line, a little more than the distance across the channel.

LATHAM MAKES FLIGHT.

Calais, July 13.—Lieut. Latham, the French aviator who is waiting here for favorable weather conditions to attempt to reach England in his monoplane, made a splendid fifteen minute trial flight this morning. In coming down, however, the wheels of his propeller were slightly damaged by contact with the earth. He came down near the starting point.

FIFTEEN MOTOR CYCLES.

That Many Have Been Entered as Features of the Auto Races.

One of the features of the auto races at Driving park on the 31st of this month will be the motor cycle race in which there are already fifteen entries from this city and surrounding parts. A. L. Randall, as secretary of the Auto Dealers' association, is going to Indianapolis tomorrow to arrange with some of the big drivers now in that city to appear here on the date of the races.

WESTON TAKES ANOTHER DAY.

Aged Pedestrian Obliged to Delay His Entry Into 'Frisco.

San Francisco, July 13.—Edward Payson Weston, the aged trans-continental pedestrian, has added still another day to the number which has been attached to his original schedule of one hundred days, and he will not appear in this city until Wednesday afternoon.

On account of the heat in the Sacramento valley Weston did not leave the state capitol until a late hour yesterday.

Weston has lost twenty pounds on his journey across the continent, but he looks well and declares that he is ready for the return trip.

SUCCESSOR WILL BE HIS OLD SCHOOL FELLOW

German Chancellor Allowed to Name Von Bethmann Hollweg for Place.

Berlin, July 13.—Prince von Buelow, the retiring imperial chancellor, will formally propose in his audience with Emperor William tomorrow that he be succeeded by Dr. von Bethmann-Hollweg, secretary of the interior and vice chancellor. There is reason to believe that his majesty will accept this proposal and that the appointment will be gazetted at once.

Prince von Buelow will thus be permitted to name his own successor at Emperor William's request.

Dr. von Bethmann-Hollweg is a college friend of the emperor; they were fraternity brothers in the Borussia corps at Bonn and during the entire reign of William, Dr. von Bethmann-Hollweg often has advised his majesty. He had, however, shown a disinclination to accept high office. He is a man of reserve and thoughtful habits and sometimes has been called the "philosopher statesman."

Dr. Von Bethman-Hollweg is of Jewish origin. He is now 53 years old. In his youth he studied law and was appointed assistant judge. Before he was thirty years old he had been made district governor of Ober-Barnim, and later he became provincial president of Potsdam, where the suburban palace of Emperor William is located. He became president of the government of Bromberg and later president of the province of Brandenburg, from which post he took up the portfolio of Prussian minister of the interior and followed Posadowsky as imperial minister.

RAIN WROUGHT BIG DAMAGE IN THE LOWER STATE

Cloudburst Swept Off Top of a Hill at Vevay and Caused Havoc.

Aurora, Ind., July 13.—A cloud burst swept off the top of a hill north of Vevay, Ind., and threes and bushes were thrown into the town. On iron bridge over Indian creek at Longrun was carried two miles down stream, where it struck and destroyed a house. Water ran a foot deep in Vevay and the surrounding country. There has been a great property damage and many cattle have been killed. It is not known that any persons have lost their lives. Rain poured down in a seemingly solid mass for an hour.

GREAT DAMAGE TO CROPS.

Princeton, Ind., July 13.—The rain and wind storm last night caused many thousands of dollars damage to grain crops in the southeastern portion of Indiana, besides demoralizing telephone lines and trolley cars and railroad service in several counties. Trains on the Evansville & Terre Haute railroad are delayed today, owing to numerous washouts. The Southern Indiana Traction company is crippled by the burning out of its wires at Fort Branch.

D. A. R. DAY AT WINONA.

Number of Fort Wayne Ladies Are Going to That Place Thursday.

Thursday of this week is to be D. A. R. day at Winona lake and probably seven or eight members of that order in this city will comprise a special party to the resort for the day. Mrs. Dinwiddie, the state regent, whose home is in Fowler, Ind., is to make an address and the remainder of the day's program is said to be very attractive. Mrs. C. A. Dunkleberg and Mrs. E. H. Merritt are in charge of the arrangements for the trip.

RUGGLES' AFFAIRS MYSTERY.

Man Who Ended Life in Chicago Hotel Had a Secret or So.

Chicago, July 13.—Clarence Ruggles, 40 years of age and believed from papers in his pockets to be a school teacher of Denver, Colo., was found dead in bed at a hotel today supposed to have met death from the effects of strychnine. The police think he committed suicide and are making an investigation.

The police were mystified by the following letter found among Ruggles' effects:

"Dearest Lad: Your good cards came today. I hardly know what to write as 'All will be over' when you get this—but you say you are playing safe anyway. Awfully hot here. Keep bus teaching. Get a quart of milk for him every day, so don't have to go out to lunch. Miss Moore wrote me not to do too much tutoring, as I needed rest. The gold fish are fine, but need lots of care. Lovingly, Alice."

The card was postmarked Denver.

HEAT AFFECTED HER.

Miss Mamie Stier Had to Be Removed to Her Home in a Carriage.

The heat of the middle hours of the morning, which was intensified in the down town district, so affected Miss Mamie Stier, a stenographer in the office of F. J. Federspiel, in the Hamilton National bank building, on Calhoun street, that she was forced to abandon her work and had to be taken home in a carriage. Her condition is said not to be serious, however.

TO FINISH BY AUGUST.

Workmen at "Alt Heidelberg" Building Rushing Their Labors.

That the structure may be ready for occupancy by the 1st of August, the workmen on the "Alt Heidelberg" building on Calhoun street, are rushing their labors. As the upper part of the building is already completed it seems very probable that the desire to open at the time stated will be gratified. Dan Clemens, who is to manage the stag hostelry, is busy ordering equipment for the dining and grill features of the hotel, which he says will be in Bohemian style.

REFUSES CLEMENCY.

Governor Marshall Monday refused the application for parole in the case of Charles Meyers, sent to the reformatory April 24, 1907, from Allen county, for from two to twenty-one years for criminal assault.

Among the prisoners paroled was Chauncey Steele, convicted in Adams county, June 9, 1906, of forgery, and sentenced to from two to fourteen years.

SHOWS WATERWAYS HAVE BEEN LEFT TO DECAY

Railroads Usurping Rights of Rivers and Canals — Smith's Report.

Washington, July 13.—Lack of early in the inland waterways of the country is given as the principal reason for the loss in traffic which these public carriers have sustained in recent years in the report submitted to the president by Herbert Knox Smith, commissioner of corporations. Mr. Smith points out that the railroads now are usurping much of the traffic which rightfully belongs to the canals and rivers of the country.

In connection with the enormous losses in traffic which the waterways have suffered since the great growth of the railroad systems, Mr. Smith says 4,500 miles of canals have been constructed throughout the country. At the present time, however, over one-half of this mileage, constructed at a cost of more than $80,000,000, has been abandoned the canal traffic (excepting that of some short ship canals) has steadily decreased.

The first need in the regaining of the carrying power of the waterways, says the report, is the construction of better terminal facilities. The present unsatisfactory condition of these terminals now is one of the greatest handicaps to the water project.

5,800 Miles of Rivers Neglected.

In referring to the lack of unity in the water systems, the report says that while the United States has 5,800 miles of rivers of six feet depth and over, and more than 2,000 miles of canals, these totals are broken up into a large number of unrelated parts by reason of different depths and different conditions, and that the diverse nature of the floating equipment increases this lack of organization. Many vessels are built for special traffic or local conditions and are thus often not "interchangeable" over different, even though connecting, routes.

"Through freight constitutes a great part of the country's traffic," the report continues. "A reasonable share of such through freight is essential to the success of the water system. But the water system, unorganized and divided as it is by diversities of channels and equipment, is greatly at a disadvantage in competition with the rail system for this through traffic."

The report also calls attention briefly to the unsatisfactory condition of water terminals (to be treated more fully in another part of the report, now in preparation), a matter of the highest importance in transportation. Terminal improvement on waterways is one of the first requirements, and is entirely possible.

Europe Sets Good Example.

It is noted that European countries have in many cases distributed the cost of waterway improvement upon localities in some ratio with the special benefits received, while little of that sort has been done in this country.

The report also sets forth the steady advance of steam over sail power, and the tendency toward corporate ownership of steam tonnage, especially the larger vessels. In 1906 the average size of vessels owned by individuals was 113 tons, and by corporations 526 tons. Operating expenses, so far as obtained, averaged about 80 per cent of the gross earnings. The lowest ratio of operating costs was on the bulk cargo vessels of the great lakes, the highest that of the packet lines on the Mississippi system and southern rivers.

The report points out the possibilities of water transportation, the limitations existing thereon, the reasons for their present inefficiency, and the lines along which action toward improvement can properly be taken.

MIAMI COUNTY HOME-COMING.

Peru Arranges Program for Diamond Anniversary.

Peru, Ind., July 13.—The executive committee for the Peru diamond anniversary celebration and Miami county home-coming has arranged its program, though not in details, for the event which is to take place in August, beginning August 8, which is Sunday.

On this date the various churches will have morning services with former pastors "coming home" to preach to the various congregations. In the evening there will be a union meeting at which all the old-time ministers will speak.

Monday is to be known as reception and registration day. Tuesday the Odd Fellows, Knights of Pythias and other fraternal organizations will have district conventions.

Wednesday will be for the G. A. R. reunion, with state officers present, the old settlers' picnic and the annual gathering of horse thief detectives, who have a county organization composed of 1,500 horse owners. Thursday will be automobile and industrial day. Parades will be made each day and at night there will be electrical and fireworks displays. Prizes are to be given in many contests. Several bands are engaged for the occasion.

The committees have obtained a sum of money sufficient to make the undertaking a success.

IT IS UP TO THE PEOPLE.

With few dissenting votes recorded the house of representatives at Washington has adopted the joint resolution originating in the senate that provides for an amendment to the constitution authorizing the levying of a tax on incomes without being apportioned among the states. Three-fourths of the several states through their legislatures must ratify this amendment, whereupon it will become part of the nation's organic law.

This procedure toward an income tax comports with the urgent suggestions of President Taft, who very forcibly argued that the uncertainty of the fate of another congressional enactment made it wise to adopt the certain if longer course and make specific provision in the constitution for such a means of raising revenue so that the right of the government in an hour of critical duress to procure money by taxing incomes may never again be questioned.

Congress has passed the joint resolution and the president will sign it. Then the issue will be up to the people of the United States. Persons hostile to the proposed amendment profess to believe that it will be possible for great moneyed interests of the nation to defeat a ratification of the amendment, to do which the negative votes of twelve states are necessary. Possibly money can control the six New England states, together with New York, New Jersey, Delaware, Pennsylvania and Maryland, but it may very well be doubted. Legislatures heretofore have been thoroughly boodleized in some of those states and doubtless can be again. Other states may be found purchasable, but it is much to be questioned. In the election which will determine the legislature that must vote on the amendment the people of each state will choose with uncommon care.

One William Howard Taft wants a corporation tax. He is not so particular about the rate, but he wants a rate of some kind. Consequently it is quite likely that when the corporation tax finally becomes the law it will provide for an assessment of 1 per cent on the net incomes of corporations. It is quite reasonably to be suspected that the proceeds of this tax are of somewhat less concern to the president than some other considerations of the measure. There has been no law, for instance, that kept the government in quite as close touch with corporations and their affairs as this corporation tax would do. In a time of deficits $9,000,000 or $10,000,000 in revenue is by no means to be sneezed at, but the proceeds of the corporation tax are not in any sense essential to a revenue-raising measure. The corporation tax will both raise money and keep corporations tractable. The latter phase of its effect must be regarded as the desideratum.

A replica of Fulton's first steamboat has just been launched in New York. Ought to take up from Washington to see it a bunch of mossback, leg-dragging congressmen who say it is a waste of money to try to fly and let them look on the reproduced old Clermont and then on the Mauretania or some other mighty liner of the ocean. Fulton in his day had to overcome fogeyism, mossbackism and a general want of faith in progress just as great inventive genius today must against these things. Wireless telegraph was at first derided as an impracticable toy. The submarine boat had a hard time getting a hearing in this country. The Wrights got a cordial hearing from their own government last of all. Now it is feared there will be insuperable difficulty to get congress to appropriate a few thousands to equip the war department with Wright aeroplanes.

Sanitary rules for the government of schools based on the laws passed by the last legislature have just been formulated and sent out by the state board of health. To some persons certain of these new rules may appear extravagant or grotesque, but they are all sensible and well considered. Some of them are of first importance in connection with school regulation. Overcrowding is forbidden and a thorough cleaning of each room between dismissal of school one day and reconvening it the day following is imperative. These two regulations are most salutary on many accounts. Local health officers and school teachers and officials everywhere should thoroughly acquaint themselves with these new regulations. Complete enforcement of them means much to the health of the state's school children.

No house democrat voted against the income tax resolution and but fourteen republicans opposed it. Of these all were from the east, save two—Calderhead, of Kansas, and Fordney, of Michigan. Calderhead is a reactionary of pronounced type, who comes near out-Aldriching Aldrich in violent standpatism. His case may very well be taken up by that eminent and militant pair of progressives of his own state—Senator Bristow and Editor William Allen White. They have done some notable chasing of reactionaries out in the Jayhawk state, but they never have found nor will ever find any better game than Bill Calderhead. Marysville yawns to receive him. That matter, however, is a Kansas funeral, and we have no wish to butt in.

Perhaps, if that Chicago jury can determine whether Ella Gingles tied herself, mutilated her body and then made herself a prisoner in a hotel bath-room, it would be well to go back with a muckrake some twenty-eight years and find out if Cadet Whittaker really did do it himself. These and other Billy Patterson mysteries ought to be cleared up when there is somebody at hand who can do it.

Prof. Simon Newcomb, with a great mind and a reputation as a scientist that will outlive many generations of men, has just died, poor, but not unhonored nor unsung. Like his kind he had a very healthy contempt for money and very sincerely did not want to be bothered with it. Which proves that Prof. Simon Newcomb could have gone into Wall street and got himself arrested in no time as a lunatic.

Eskimo who has been dabbling with effete civilization around New York is tired of it and is going to discover the north pole. Maybe he can do it. But Eskimeaux folk have known for a good while how hard and expensively white men were hunting that pole and never offered to help.

Great cry again raised against income tax on the ground that it will put a premium upon lying. Well, it won't for men who are not liars. If a man proves himself a liar not merely an income tax made him so.

A dozen or more London suffragettes have gone to jail rather than pay fines for stoning the house of commons. A suffragette without a jail would be just an ordinary disturber. Hence.

MOB WANTED TO LYNCH HIM.

Deputy Marshal at Seeleyville Beat Up Coal Miner.

Seeleyville, Ind., July 13.—Surrounded by deputy sheriffs with revolvers drawn, William Devore, deputy marshal of Seeleyville, Ind., was taken last night to Terre Haute, Ind., to prevent a mob of several hundred persons carrying out threats of lynching. Devore, it is said had attacked William Judson, a coal miner. Judson is in a serious condition as a result of a severe beating said to have been administered by the officer.

Judson and another miner, were engaged in a friendly boxing match in a saloon, when, it is said, Devore entered and asked the proprietor if he wished the men removed. The proprietor told the officer that it would not be necessary to remove them. Judson later left the saloon and, it is alleged, was attacked by Devore. The story spread and soon a mob of miners were in search of the deputy marshal. Devore sought refuge in a physicians office where a deputy marshal at each door kept the crowd at bay with drawn revolvers. An appeal for aid was sent to Terre Haute. The deputy sheriff was taken to Terre Haute at 11 o'clock.

ELEVEN WILL DRILL FOR OIL.

Companies Act on Strike on Farm Near Gentryville.

Boonville, Ind., July 13.—Eleven different companies are making preparations to drill in the Warrick-Spencer oil and gas belt. Their action has been brought about by the finding of gas at a second well on the Fred Frakes farm, near Gentryville. All of the companies will drill two or more wells.

On the P. N. Hoover tract, alongside the Frakes farm, and upon which two gas boomers have been opened, the Pure Oil company of Pennsylvania is preparing to drill at sixteen different points.

In the immediate vicinity of the Frakes farm there are several farmers who refuse to lease their land upon any consideration and will begin drilling themselves pending the outcome of the drilling on the other leased tracts.

Eight Young Women Take Solemn Vow Never to Wed.

Columbus, Ind., July 13.—Eight young women took a solemn vow never to marry Sunday night at the home of Mr. and Mrs. Maurice Frohman. The girls who refuse to have their names on marriage certificates are Nellie and Bernina Carter, of Edinburg; Florence Dietz and Florence Miller, of Madison; Ona Gore, of Indianapolis, and Katherine Herrell, Hattie Watts and Lula Patterson, of this city.

Each will pay a penalty when seen on the streets with a man. Miss Bernina Carter was elected supreme spinster.

Columbus has also an organization known as the Consolation club, the members of which are suffering from the summer absence of their sweethearts. Prosecuting Attorney W. V. O'Donnell was named chief consoler of this club, and Miss Elsie Mennett, who returned from Wilson college in Pennsylvania, last week, is the exalted weeper.

ARCADE **DALLAS F. GREEN** JEWELER

BANKER SHOT BY AN ADMIRER OF HIS OWN WIFE

Watseka, Ill., Physician is Held for Murder of Cold Blooded Sort.

Watseka, Ill., July 13.—J. B. Sayler, vice president of the First National bank, of Crescent City, was shot and instantly killed in his own house Sunday night by Dr. W. R. Miller, a physician, who for two years had been paying marked attentions to the banker's wife. Throughout Iroquois county the citizens are so aroused over the crime that mob violence is feared and the sheriff has doubled the guard at the county jail.

As the facts were unraveled at the coroner's inquest, Sayler, on returning home late Sunday night, surprised Miller in the company of Mrs. Sayler. The doctor proposed a game of cards. The banker declined and remonstrated with the physician for his conduct, which had created gossip in the community. For answer Miller pulled an automatic revolver from his pocket, according to the evidence at the inquest, and fired pointblank at Sayler. Four shots struck the husband, one piercing the heart and causing instant death. In the meantime Mrs. Sayler, at the beginning of the altercation, had fled from the house.

"It was none of my affair, and I let them fight it out," she declared coolly yesterday at the inquest.

Slayer Arrested in Bed.

After the shooting Miller went home and retired to bed. Neighbors who had heard the shots rushed over to the Sayler home and found the banker lying dead in a pool of blood. The sheriff of Iroquois county was summoned, Miller was arrested and brought to Watseka, where yesterday he was held by a coroner's jury for the murder of the banker.

Both families are prominent in Iroquois county. Sayler was a retired farmer and stockman of considerable wealth, who, upon leaving the farm, went into the banking business. He was universally esteemed throughout the county. Miller had lived at Crescent City for five years, and although his family was popular he himself had been severely criticised and censured in the public gossip for his alleged attentions to Mrs. Sayler, which, it was developed at the inquest, have been of a most devoted nature for a period of over two years.

From the testimony great weight is attached by the police authorities to the theory that the murder was premeditated. Support for this belief is derived from the fact that Dr. Miller sent his wife and two children away for a visit with relatives, while simultaneously Mrs. Sayler sent off her 17-year-old daughter on a trip.

Plea is Self-Defense.

At the inquest Miller maintained that he acted in self-defense, exhibiting a bullet wound in his shoulder in support of this story. The police assert the belief that this wound was self-inflicted. The physician asserted that during a senseless quarrel Sayler shot him, whereupon he at once drew his own weapon and fired.

This version was corroborated by the wife of the slain man, who made a statement to the effect that her husband started the trouble that led to his death by attacking Miller with a hatchet. Inasmuch as no hatchet could be found about the premises, this story is not given credence by the police. On the witness stand Mrs. Sayler's attitude was one of apparent unconcern. She answered questions boldly and without a tremor in her voice. When the coroner asked her why she did not go to the aid of her husband she replied with the greatest coolness: "I didn't think it was any of my business to interfere."

DETECTIVE BEATEN BY MOB.

Strike Sympathizers Roughly Use Man Seeking "Scab" Workmen.

Pittsburg, Pa., July 13.—J. E. Wilds, who claims to be a detective from Cleveland, O., was mobbed and seriously beaten yesterday by alleged strike sympathizers of the Amalgamated Association of Iron, Steel and Tinworkers at Follansbee, near Steubenville, O.

It is said Wilds was engaged in getting nonunion men to take the places of strikers in the plants of the American Sheet and Tin Plate company. He was rescued and placed in jail, temporarily, for safety.

SUPPOSED HUSBAND FLEES WITH HER $1,800

Michigan City Woman is Made a Victim by a Smooth Adventurer.

Michigan City, Ind., July 13.—After wooing Mrs. Minnie Daniel, a widow, for three days, Fred Miller, saying he was an electrical engineer, of Philadelphia, Pa., deserted her in Chicago on Saturday after making her his victim to the extent of $1,800. Miller secured a license on July 3 to wed the widow.

She thought the formality of getting the license was all that was necessary to complete the marriage tie, and she lived in utmost happiness, until it dawned upon her Saturday, while she was waiting in the Illinois Central depot in Chicago for the return of her supposed spouse, that she had been duped.

He went out, telling her he was going to check his baggage to their new home, Philadelphia. After an hour she became suspicious and sought the privacy of a room, where she took an envelope from her bosom to see whether her money was gone.

In place of finding bills to the amount of $1,800 she found bits of the comic supplement of a Sunday newspaper. The money was taken here on Friday night and before going to Chicago Saturday morning Miller, upon arising, advised Mrs. Daniel to put the envelope in her bosom and pin it in, and not keep looking at the money every few minutes for fear of being robbed.

She carefully tucked the envelope of pictures away in her waist. A letter received last night from Miller goes on to tell Mrs. Daniel how easy she is. Miller mailed the epistle at Detroit and said he was on his way to Canada.

THIEVES STEAL $50,000 PLANTS.

Raid Mrs. Russell Sage's Gift Rhododendrons in Central Park.

New York, July 13.—Policeman McKeagny, of the Central park squad, who carries service stripes of twenty years on his sleeve, got into trouble yesterday because of rhododendrons.

That is a new trouble in the department; there may be such things as absent from post, extortion, assault—but never before rhododendrons.

Just about a year ago Mrs. Russell Sage presented to the city 6,000 rhododendron plants to be set out in Central park.

The shrubs were aristocrats of their genus, they came from Belgium, each with its roots bound up in sacking. They were valued at $5 a piece and were part of a $50,000 gift by Mrs. Sage. They were planted for a mile along the east drive.

Some citizen discovered that Belgian rhododendrons were worth $5 a plant. With that discovery began raids on the mile of aliens. Before spring this year 200 of them had been stolen by night, and the thieving began again a few weeks ago.

On Sunday the sleuths picked up John J. James, a chauffeur employed by the Central Park garage, and after he had been questioned by Deputy Commissioner Bugher Monday morning Policeman McKeagny was summoned to appear on the commissioner's carpet.

McKeagny admitted that although he saw a man step from a taxicab on a certain night in June and dig up three rhododendron bushes and then drive away with them he did not arrest him.

ELECTRIC TALKS

No. 158

"As Now Is Our Water Works"

Official statements of "absolute correctness" make delightful reading.

Their hidden humor and transparent purpose divert without taxing the mind.

Their double meanings are as stimulating as those popular puzzles "HOW TO MAKE THE OTHER FELLOW PAY THE COST OF TRACK ELEVATION;" and LIGHT, LIGHT, WHO'S GOT THE LIGHT?" sometimes called "THE FAVORED FEW" puzzle.

The Controller's "great care" statement, already quoted from, must certainly rank with SUMMER FICTION—indeed AS RANK SUMMER FICTION.

When the plot gets to the pipe dream stage wherein everybody in Fort Wayne is to "live happily forever after," we are told this fairy tale with a moral:

"The municipal water works has certainly been a great success in Fort Wayne, insuring a better service to the people at a great saving in cost. The municipal electric works will prove itself to be even a greater success, of far more value and benefit to the city, its people, and future generations."

It is not a new fairy tale. Indeed its age is what has endeared it to many an old resident who has never had experience of a first-class water service in other cities.

The author of these "great care" stories for summer consumption fully appreciated this.

The political aspirants of the vintage of the early eighties have recognized this local predilection for a service that provides something wet, impure, discolored and full of alien tastes and smells, at a bargain-counter price.

It is the appeal to appreciators of the "cheap and nasty."

But why call our city water works providing such a water a SUCCESS?

Any water service to make a success must achieve SOMETHING BESIDES CHEAPNESS.

1. QUALITY must be there.
2. QUANTITY must be there.
3. PRESSURE must be there.

Let everyone DARE to SPEAK THE TRUTH about all three.

What is to be said for the quality when many of Fort Wayne's residents dare not drink this water at all?

When few drink it without purification at their PRIVATE EXPENSE?

When no one can use it in the laundry and secure white results?

When every leading hotel advertises the fact that it does NOT use Fort Wayne water in its natural condition, but only after settling and purifying at LARGE PRIVATE EXPENSE?

When no stranger or visitor to Fort Wayne ever has a word of praise for the City water?

"Why, this Fort Wayne water is enough to 'drive one to drink!'" as a frequent vistor remarked in our hearing recently.

Does anyone doubt that our water system can be improved and ought to be improved?

Let us look into this water further. We may find more than one reflection there.

Read our next Talk.

Fortune Telling

Does not take into consideration the one essential to woman's happiness—womanly health.

The woman who neglects her health is neglecting the very foundation of all good fortune. For without health love loses its lustre and gold is but dross.

Womanly health when lost or impaired may generally be regained by the use of Dr. Pierce's Favorite Prescription.

This Prescription has, for over 40 years, been curing delicate, weak, pain-wracked women, by the hundreds of thousands and this too in the privacy of their homes without their having to submit to indelicate questionings and offensively repugnant examinations.

Sick women are invited to consult Dr. Pierce by letter *free*. All correspondence held as sacredly confidential. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

Dr. Pierce's Great Family Doctor Book, The People's Common Sense Medical Adviser, newly revised up-to-date edition—1000 pages, answers *in Plain English* hosts of delicate questions which every woman, single or married, ought to know about. Sent *free*, in plain wrapper to any address on receipt of 21 one-cent stamps to cover mailing only, or in cloth binding for 31 stamps.

IN THE CITY'S CHURCHES

LOCAL DELEGATES TO THE WALTHER LEAGUE

National Convention Opens at Milwaukee Sunday Evening, July 18.

The seventeenth national convention of the Walther league will open in Milwaukee, on Sunday evening with special services at Trinity Lutheran church. Ft. Wayne will be represented by twelve delegates from the local Lutheran churches. Prof. F. A. Klein, a teacher at Zion's Lutheran church is national president and Henry G. Pfeiffer is national corresponding secretary, the latter is also a delegate from the Young Men's league at St. Paul's Lutheran church. The officers and delegates will leave on Saturday for the great meeting, which will bring together hundreds of Walther league members from every section of the country.

Delegates from Fort Wayne are as follows:

St. Paul's church, Young Men's league, Mart Wyneken, Edward Wyneken, Henry G. Pfeiffer; Young Ladies' league, Miss Emma Lepper, Miss Anna M. Gallmeier.

Zion's church, Young Men's league, O. Marahrens, Lewis Kramer; Young Ladies' league, Miss Anna Schmidt, Miss Frieda Schmidt.

Emmaus church, Young Ladies league, Miss Nellie Grimm, Miss Etta Gallmeyer.

Emanuel church, Young Ladies' league, Miss Frida Kampe.

Morning and afternoon sessions will be held at the convention on Monday, Tuesday and Wednesday, the annual election of officers taking place at Tuesday afternoon's meeting. The national convention was held in Fort Wayne in 1907 and the year following in Cleveland.

Rev. Philip Wambsganss, pastor of Emmaus Lutheran church will leave on Thursday or Friday for Cleveland, where on Sunday morning he will preach the sermon at the silver jubilee celebration of St. John's Lutheran church at Newburg, a suburb of Cleveland. He will be the guest of the pastor, Rev. O. Gotsch and on Sunday evening will leave for Milwaukee to attend the Walther league convention.

RAILROAD MEN'S SERVICE.

To Be Held at Wayne Street M. E. Church Sunday Morning, Aug. 8.

Rev. C. Claud Travis, the energetic young pastor of Wayne Street Methodist Episcopal church is making arrangements for the conduct of special services Sunday morning, August 8, for the railroad men of the city. He extends a most cordial invitation to men in all departments of railroad work and urges the attendance of all local unions or lodges of railroad employes.

His sermon at their service will be appropriate for the occasion and a fine musical program will be rendered.

COLLEGE PRESIDENT TO PREACH

Rev. Dr. E. B. Bryan, of Franklin, at Baptist Church Sunday, August 1.

Rev. Dr. E. B. Bryan, president of Franklin college, will supply the pulpit of the First Baptist church in this city on Sunday, August 1. The pastor, Rev. John F. Vichert, and family will leave the city the last of July on a vacation trip and Dr. Bryan will be the first of the pulpit supplies during his absence.

Next Sunday evening the Baptist church and Plymouth Congregational church will hold joint services in the former church. The sermon for the occasion will be preached by Rev. Dr. Frank Granstaff, of Winona Lake. He is announced as an interesting speaker and is one of Dr. Wilbur Chapman's leaders in his evangelistic campaigns.

EPISCOPAL CHURCH NOTES.

Changes in the Order of Services and Meetings.

A change is made at Trinity Episcopal church in the hour of Sunday evensong from 7:30 p. m. to 5:00 p. m. during the months of July and August. There will be no sermon at this service, which will last about half an hour. It is believed that the hour of 5:00 p. m. is a good time for a vesper service, and that the change will prove attractive to the congregation.

There will be no meetings of the Ladies' association during the months of July and August. There will be a meeting in September at the residence of Miss Morris, on Maple avenue. The exact date will be announced later.

Members of the association are asked to bear in mind the rummage sale which will be held in the fall, and also the fancy goods sale which will be held about the holidays.

AMONG THE CHURCHES.

Daily Record of Current Events in Religious Circles.

The announcement concerning vacation arrangements at the Third Presbyterian church will soon be made by the session. Vacation will begin after the First Sunday in August.

The South Hanna Mission Bible class will meet tomorrow afternoon at 2:30 o'clock at the home of Mrs. A. Grodrian, 2809 Hanna street. Mrs. J. W. Gruber is class teacher.

Miss Lillie Beaber, who is the guest of friends in the east will sail from New York on Saturday for Tabriz, to resume her work as a Presbyterian missionary sent by the Fort Wayne presbytery.

The trustees of Trinity Methodist Episcopal church will hold a business meeting at the church on Friday evening.

The annual camp meeting of the Free Methodist churches of the Fort Wayne district will be held at Bluffton beginning Thursday, July 22, and continuing for ten days.

The home Missionary society of St. Johns Evangelical Lutheran church will hold a meeting on Wednesday afternoon at the school hall. Mrs. Charles Geller will be hostess.

A meeting of the Ladies' Aid society of Wayne Street Methhodist Episcopal church will be held in the church parlors tomorrow afternoon at 2:30 o'clock.

The Women's Home Missionary society of Wayne Street M. E. church will give a picnic at Robison park on Friday afternoon and evening, August 6, instead of in September as previously planned. The September meeting will be held at the home of Mrs. Budd Van Sweringen, Washington boulevard west.

Rev. Edward Mungovan, pastor of St. Patrick's church, Arcola, is the guest of relatives in the city.

Y. M. C. A. BUILDING PLANNED.

Movement for Same Discussed by Local Ministers and Laymen.

For the purpose of awakening renewed interest in the project of erecting in Fort Wayne, a new building for the Young Men's Christian association a meeting of ministers and laymen was held Monday evening at the monthly session of the committee of management at the Railroad Y. M. C. A.

Addresses on the need of such an edifice, its advantages and results, were given by Rev. C. Claud Travis, pastor of Wayne Street Methodist Episcopal church, Rev. Clifford D. Rarey, pastor of Bethel Evangelical church; Rev. Dr. Frank M. Fox, pastor of the Third Presbyterian church; Rev. Richard C. Jones, pastor of Simpson Methodist Episcopal church; J. W. Burns, general secretary of the Railroad Y. M. C. A., and B. Paul Mossman.

Fort Wayne is said to be the only city of its size in the United States that is not provided with a well equipped Y. M. C. A. building, and an earnest effort will be made to promote the erection of one here as soon as financial resources will permit. The speakers were all enthusiastic on the movement and their series of talks were quite interesting. Following the meeting refreshments were served.

Secretary Burns is spending the day in Chicago on business.

Rev. J. K. Cecil, pastor of the First Methodist church, went to Warren today in the interest of the Old People's home that is being erected there.

The Epworth League of Simpson Methodist Episcopal church will hold a social this evening at the home of Mrs. Hines, 2526 South Wayne avenue. A meeting of the Ladies' Aid society of Simpson church took place this afternoon at the home of Mrs. Truesdale, 618 Walnut street.

Senator Fred Joss is reported quite ill at his Rome City cottage.

INCOME TAX IS UP TO PEOPLE OF NATION

House Passes Joint Resolution and President Will Sign It.

Washington, July 13.—It now is up to the legislature of the several states to say whether there shall be an income tax amendment to the constitution. By the decisive vote of 317 to 14, more than the necessary two-thirds, the house yesterday afternoon passed the senate joint resolution providing for the submission of the question to the states.

To a man the democrats voted for the resolution, while fourteen republicans cast their votes against it as follows:

Allen, Maine.
Barchfeld, Pennsylvania.
Dalzell, Pennsylvania.
McCreary, Pennsylvania.
Wheeler, Pennsylvania.
Fordney, Michigan.
Gardner, Massachusetts.
McCall, Massachusetts.
Weeks, Massachusetts.
Hill, Connecticut.
Henry, Connecticut.
Olcott, New York.
Southwick, New York.
Calderhead, Kansas.

No amendment having been made to the resolution, it now goes to the president for his signature.

Practically four hours were consumed in debating the proposition, and this afforded many members, mostly democrats, an opportunity to air their views. Chairman Payne, of the committee on ways and means, voiced the sentiment that such a tax would make "a nation of liars," although he said it was well that such power should be given congress, especially in times of war.

McCall Attacks the Resolution.

To pass such a resolution at the present time without having been duly considered by a committee was characterized by Mr. McCall, of Massachusetts, as a "proceeding of extraordinary levity." He was especially antagonistic to the idea of doing away with the rule of apportionment as showing no fealty to democratic principles. It was his view that in imposing the tax the power of the central government, "already so great that it is devouring the state governments," should be limited to times of war.

"You already have a sufficient opportunity for corruption and for the political Jack Cade of the future to levy blackmail," he claimed. The proposed tax, he said, was predestined to be as unpopular a tax as ever was imposed.

"We welcome the conversion of the republican party to another democratic principle," was the comment of Mr. Clark, of Missouri, the minority leader. An income tax, he maintained, was a democratic principle. He concluded by expressing himself in favor of increasing the amount of exemption above $5,000. This led him into a colloquy with Mr. Burke, of Pennsylvania.

"How far above $5,000 and why?" Mr. Burke asked.

"I would fix whatever figure I did fix for the public good," sharply answered Mr. Clark.

Would Make Poor Man Exempt.

Declaring that if the question had been put to him, Mr. Clayton, of Alabama, said he would exempt the poor man, who was least able to bear the burdens of government, and would tax the multi-millionaires and thereby make the idle rich pay something to the support of the federal government.

"I scorn," said Mr. James, of Kentucky, in favoring the resolution, "a government whose taxing power provides that Lazarus shall share his crumbs, but that Dives must not give up his riches."

Mr. James quoted from an ante-election speech in which Mr. Taft favored a graduated income tax, and expressed the view that perhaps a change in the personnel of the United States supreme court might effect a reversal of its former opinion, holding the income tax unconstitutional.

"You denounced Bryan for that," he exclaimed, facing the republican side. "You said he was assailing the honor and integrity of the supreme court, yet the man you elevated to the loftiest station in the nation virtually repeated the same words that for twelve years the democratic party in every platform had uttered."

While favoring the amendment, Mr. Henry, of Texas, expressed the fear that it would suffer defeat if submitted to the legislatures. He desired to have the proposition submitted to constitutional conventions. An amendment to this effect was defeated on roll call.

MILK CASE CONTINUED.

Charles Stimmel was in the city court this morning on a charge of violating the milk ordinance and his case was continued until Saturday on account of the absence of Inspector F. W. Tucker. Clemens Bates, charged with selling unwholesome meat, was also to have been in court, but was not present. Bates has a place on Maumee avenue.

BABIES BENEFIT BY NEW SKIN DISCOVERY

Stops Itching Immediately, Soothes and Comforts the Little Ones.

A demonstration of the efficacy and entire harmlessness of posiam, the new skin discovery, is afforded when it is applied to the tender skin of infants who are tortured with rashes, chafings, scaly and crusted humors and other skin aggravations. Its effect is soothing, the itching stops at once, the skin heals and is quickly restored to normal condition.

In the various forms of skin troubles in both infants and adults, posiam produces beneficial results from the first application. Eczema, acne, herpes, rash, tetter, etc., yield readily to its remarkable curative properties. Occasional applications will quickly banish pimples, blotches and complexion blemishes and will relieve and cure itching feet, scaly scalp, humors, etc.

Posiam can be had for fifty cents at any reliable druggist's particularly Meyer Brothers Co., who make a specialty of it. Or the Emergency Laboratories, No. 32 West 25th Street, New York City, will send a trial supply free by mail to any one who will write for it. This is sufficient to show results in 24 hours.

MOB WAS READY TO LYNCH MAN NEAR LAPORTE

Brute Who Made Brutal Attack on Farmer's Wife Has Narrow Escape.

Laporte, Ind., July 13.—Thomas Shepherd, 35 years old, who says he formerly lived in Illinois, but who has been working around Laporte county for some time, was rushed to the county jail here last night by Sheriff Anstiss and ex-Sheriff Albert F. Smutzer in an automobile after he had had a narrow escape from being lynched by a mob.

Shepherd attacked Mrs. William Peterson, wife of a farmer. Today Mrs. Peterson is in a precarious condition. Shepherd says he was drunk when he committed the crime.

Mrs. Peterson was alone at home, save for her 10-year-old daughter, when Shepherd made his first appearance at the Peterson home. She cried for help, and this frightened the man, who quickly disappeared.

Attacked on Public Road.

Two hours later the woman had occasion to go to a neighbor's house. Accompanied by her daughter she started down the road, but a short distance from the house the man rushed out from a fence corner and grabbed her.

Screaming and struggling, she endeavored to get away, but Shepherd was too strong. He choked her, tore most of her clothing from her person, struck her in the face, so that one eye is black, threw her to the ground, fracturing an arm, and would have injured her more seriously had not the daughter by that time brought help from the nearest house.

Shepherd escaped before the men reached the scene, and a posse armed with rifles started in pursuit. After a three hours' search Shepherd was overhauled and surrounded.

Prisoner Escapes for an Hour.

In the meantime Sheriff Anstiss had been notified, and while he was speeding to the scene, with ex-Sheriff Smutzer in the machine, the fugitive was captured, but just before dusk gave his captors the slip, and was at liberty for an hour before he was caught the second time.

At the jail Shepherd said he was drunk during the morning. He does not claim he is innocent, but says he does not remember what he did do. When told what he had done he declared his willingness to plead guilty.

Frank Purcell and family are in town for a week's visit with friends before locating in Chicago.

An Honest Man Saved by a Philanthropist

Mr. T. A. Morgan, of Hammond, Ind., had suffered for years with his stomach and kidneys, and while the great Root Juice scientist was proving the merits of the Root Juice remedy to the people of northern Indiana Mr. Morgan purchased six bottles of the Juice and while it was being wrapped up he said: "If Root Juice cures me I will make the scientist a present of one hundred dollars. A short while ago Mr. Morgan called on the scientist and said that he could eat anything without the slightest inconvenience and that his kidney trouble was entirely cured. He wanted the scientist to take the one hundred dollars, but it was refused. However, it was agreed to give the money to an orphan asylum. So Root Juice is not only curing the sick, but in this instance will be the indirect means of caring for some dead mother's child. Root Juice has proved its wonderful merits to many people of this point. From the very start it seems to soothe and heal the linings of the stomach and bowels and strengthen the liver and kidneys, thereby giving nature a chance to, in her own way, throw off the impurities of the blood. It is a wonderful medicine. Sold for one dollar a bottle or three bottles for two dollars and a half at Bradley Bros. drug store, just north of the transfer corner in the Wagner building.

Miller, Mrs. Rose Rickert, of Zion City, Miss Anna Becker and Miss Clara Rickert, of Bellevue, Iowa.

IN THE THEATERS

The Majestic Airdome's new bill, which began its week's run before two big audiences last evening, is excellent as to quality, liberal as to quantity and will doubtless prove pleasing throughout the week. The acrobatic act by the Kaichi trio—three diminutive Japanese folk—is one of the best numbers of its kind ever seen in this city and is attractive from every point of view. Other numbers on the program are also acceptable. Arthur Khrens, the German professor, is a clever monologist, though he was plainly suffering from a severe cold which impaired his voice on the opening evening. Marquis and Lynn have a good musical act. Dave Ferguson is a polite entertainer with much originality, and Haley and Haley have a singing act that is a distinct novelty, one of the changes introducing a hand organ and a monkey. Mr. Jones' song, "There Never Was a Girl Like You," won much applause.

Thomas R. Neshit has returned from a trip to Eudora, Mass., where he was called by the illness of his mother, whom he left much improved.

Do You Weigh too Much?

The Real Remedy and the Recipe.

There are some stout people whom the above question does not seem to trouble very much. They are, however, wrong to be so careless, for obesity is a complaint which brings many evils in its train. There are others who have sought long and earnestly for a really reliable remedy for obesity, and to those the following prescription will be of absorbing interest, because it presents in a simple and harmless form and sure relief—a remedy which is rapidly gaining a world-wide reputation. The reader may make up the prescription for himself (or herself) on getting the ingredients from the druggist—or the latter will do so willingly.

This is the full recipe: ½ oz. Marmola, ½ oz. Fluid Extract Cascara Aromatic, and 3½ oz. Peppermint Water. Take a dose of one teaspoonful after each meal and at bedtime.

This admirable and quite harmless remedy will soon take off pounds of the offending fatty excess; and as day by day, the weight decreases, strength and vigor will return in equal ratio; for, be it observed, there is no fasting or exercise required. Rest, good food, regular doses—these are all that is necessary to reduce weight to normal, increase the supply of pure blood, clear the skin, beautify the complexion, and restore energy and excellent spirits.

New Plain Gored Skirt.

By Mrs. Jane Ford.

For a general all around skirt that can be worn with separate waists and coats or with a coat for a street costume there is nothing so entirely satisfactory as a gored model. The one pictured in this cut is of the approved fashionable lines and fits snugly to below the hips, from which point it gradually slopes out and gives ample room for comfortable walking.

This pattern can be secured in six sizes and will fit women whose waists measure from twenty-two to thirty-two inches.

To copy it for the average woman requires eight and three-quarters yards of goods twenty-seven inches wide or six yards thirty-six inches in width.

This skirt may be made of linen, crash, serge, mohair or cloth, and if care is taken when making it that the seams are neatly joined and stitched, without stretching the bias edges, it will hang prettily.

Of course, it is understood that all goods should be spunged before made, as it serves the double purpose of preventing spotting and shrinking.

After the seams are stitched they should be dampened and pressed until perfectly dry. The placket is then stitched and pressed and the belt adjusted. To ascertain the desired length slip the skirt on and mark all around with pins or chalk the distance from the floor that is desired. This may be done with a ruler or piece of stiff cardboard and chalk. Cut the material off one-half inch below the line marked and proceed to make a shaped facing that fits the gores. This may be cut according to the lower edge of the pattern, allowing the facing to go up a distance of four inches.

With such a skirt knickerbockers will prove a satisfactory undergarment, and pongee in the natural shade or black cannot be improved upon as a material for their construction. The latter should fit snugly over the hips and the fulness at the knees must be held in place by bands of elastic.

GIRL ENDS LIFE AT MUSEUM.

Crowd Sees Fatal Leap of Young Woman in Milwaukee.

Milwaukee, July 13.—Stella May Dunn, daughter of S. M. Dunn, of Bloomington, Ill., committed suicide yesterday afternoon by leaping through a window of the Milwaukee public museum to the granite promenade forty feet below.

The girl tore herself from the grasp of her aged mother and a brother with whom she had been allowed to come to the city. Her act was witnessed by scores of women and children who were viewing the exhibits. Miss Dunn, since May 29, had been an inmate of a sanitarium at Wauwatosa.

Following a severe nervous breakdown, which occurred about March 1, in Bloomington, the mind of Miss Dunn became affected, it is said.

ORIGIN
Of a Famous Human Food.

The story of great discoveries or inventions is always of interest.

An active brain worker who found himself hampered by lack of bodily strength and vigor and could not carry out the plans and enterprises he knew how to conduct, was led to study various foods and their effects upon the human system. In other words before he could carry out his plans he had to find a food that would carry him along and renew his physical and mental strength.

He knew that a food which was a brain and nerve builder, (rather than a mere fat maker) was universally needed. He knew that meat with the average man does not accomplish the desired results. He knew that the soft gray substance in brain and nerve centers is made from Albumen and Phosphate of Potash obtained from food. Then he started to solve the problem.

Careful and extensive experiments evolved Grape-Nuts, the now famous food. It contains the brain and nerve building food elements in condition for easy digestion.

The result of eating Grape-Nuts daily is easily seen in a marked sturdiness and activity of the brain and nervous system, making it a pleasure for one to carry on the daily duties without fatigue or exhaustion.

Grape-Nuts food is in no sense a stimulant but is simply food which renews and replaces the daily waste of brain and nerves.

Its flavour is charming and being fully and thoroughly cooked at the factory it is served instantly with cream.

The signature of the brain worker spoken of, C. W. Post, is to be seen on each genuine package of Grape-Nuts.

PRESIDENT HAVING MERRY BACHELOR TIME AT HOME

With a Jewel of a Cook and a Friend to Drop in, It's Not so Bad.

Washington, July 13.—President Taft, the summer "bachelor" of the white house, is sharing fate of many other government officials and Washington residents, whose families have gone away to mountains or seashore. The president is taking the situation philosophically, doesn't seem greatly to mind the hot weather and is reading daily with delight letters from Beverly, which tell of the rapid improvement in Mrs. Taft's health.

Living bachelor fashion at the white house is not fraught with the same discomforts that beset the mere man who has his home "closed up on him" when his wife goes away and is compelled to seek food and lodging as best he may. The president had most of the divided "help," when the occupancy of the Beverly cottage was begun, so the president is well taken care of and domestic affairs at the white house run on much the same.

Cook is a Jewel.

The president allowed Mrs. Taft to take the "first cook" to Beverly, while he makes himself content with the "second cook." The second cook is a legacy from the Roosevelt administration, a negro girl named Mary, who hails from old Virginia and whose sway over the white house kitchen now is complete. Mary has few peers as a cook. The president is entertaining many luncheon and dinner guests during his bachelor days and the second cook is providing menus which few imported chefs could hope to equal.

The president has happily solved the problem of disposing of the long evenings by taking long automobile rides about the city and suburbs. He usually starts out on these trips about 8:30 o'clock, returning to the white house at 11 or afterwards. Captain Archibald Butt, the president's aide, is always his companion on these journeys and usually the president telephones an invitation to some cabinet officer, senator or representative and stops at the latter's house or club to pick him up.

Arising at about 7 o'clock the president devotes nearly an hour with dumb bells, pulley weights and other forms of exercises prescribed for him. He breakfasts slowly and usually alone, although during the past day or two he has had a guest from among the tariff conferees.

During his morning meal and for half an hour or so afterward the president reads the newspapers. Between 9:30 and 10 o'clock he begins his busy day in the executive offices. At 11:30 o'clock comes luncheon at the white house, always with some invited guest for company. The afternoon is devoted to golf, for the president hopes to play every afternoon that he remains in Washington. Dinner always finds guests assembled and usually it is an informal and delightful meal, which begins a little after 7 o'clock and continues for an hour and a half.

RECIPES.

Kromeskies of Fish.

Chop 1 pound of cooked fish. Peel and chop 1 onion and fry it in a tablespoonful of hot butter; add tablespoonful of flour and fry them with the onion for a few minutes, then add chopped fish and stir it a little. Season with salt, pepper and a grate of nutmeg; moisten with half a gill of water or stock and 1 yolk of egg, then add 2 tablespoonfuls chopped cooked ham. Spread it on a plate to cool. Make up into small cork shapes and wrap each in a thin slice of fat bacon. Have ready some frying butter. Dip the kromeskies into the butter so as to completely cover them and fry in smoking hot fat to a golden color. Drain and serve garnished with fried parsley.

Stuffed Egg Plant.

Boil 4 egg plants in boiling salted water for 20 minutes. Cut in halves lengthways. Scoop out centers and drain. Mix together in a basin 2 chopped skinned tomatoes, ½ cupful bread crumbs, ½ cupful chopped meat, ½ cupful egg plant, 1 beaten egg, seasoning of salt, paprika and red pepper. Fill egg plant shells with this mixture, cover with buttered and seasoned bread crumbs and bake in slow oven for 1 hour.

CENTRAL LEAGUE NOTES.

Manager Grant will try to fill the hole made by the sale of R. B. Kelly to the Washington team from the semi-professional ranks. While there has been a howl among the fans on account of the parting with one of the most valuable men on the staff the patronage at home did not warrant the management in turning down the sale. Washingto is said to have paid $2,500 for the player.

Knoll protested the Sunday game because Frank Killen would not permit him to change pitchers after Covington had thrown three balls to a Grand Rapids batter.

Rain is playing against the Dayton team in good shape. The Sunday game was not played and Zanesville was not permitted to go against the Vets yesterday.

"Buck" Connors, who formerly played first base for South Bend, is out in Spokane where he is leading the league in batting with an average of .333.

Scout Kelly wrote a note to Pitcher Nolley and signed Mike Kahoe's name to it, advising him to use a slow ball. He had been mixing spitters and fast straight ones and he tried easing them up. Zanesville hit him thirteen times and it now develops that one of the Potter players wrote the letter.

Zanesville is out with the announcement that seven members of the team will be drafted for faster company in the fall. The seven are not named.

Outfielder Nally, bought by Dayton from Toledo, has reported, but George Nill, also said to have been purchased, was not with him.

IN THE SHAMROCK FOLD.

Manager Cleary announces that during July and August he will put on several double-header bills. To be well equipped in the pitching department he will carry three twirlers, and the box-men will be as good as carried by any independent club in the state. Robbins, who is pitching great ball; Quinlan, who was for two months in the Blue Grass league, and Dietrich, last season with Bay City, will compose the staff. Dietrich is a south-paw.

New Castle and the Shamrocks will play a double-header at League park next Sunday, the first game being called at 2 o'clock. New Castle has a strong club and has been playing winning ball.

Eddie Herr, manager of the Bay City club, has written Manager Mart Cleary to the effect that he needs an outfielder, infielder and a catcher. The Shamrock manager tipped Herr off to a couple of good boys this spring, one of whom, Henderson, is now captain of the Bay City team.

ECZEMA IS NOW CURABLE.

Zemo, a clean liquid for external use, stops itching instantly and permanently cures eczema and every form of itching skin or scalp disease. Meyer Bros. Co., the druggists, say they have been shown positive proof of many remarkable cures made by Zemo and that they endorse and recommend it and believe Zemo will do all that is claimed for it. Ask for sample.

The automobile demand in Mexico is shown to be on a steady increase. That the taxicab system has proved a success is shown by the fact that a number of new taxicabs for Mexico City are now en voyage, and it is the intention of the company operating them there to increase the number until they will form a formidable competition with the blue-band coaches.

Many people with chronic throat and lung trouble have found comfort and relief in Foley's Honey and Tar as it cures stubborn coughs after other treatment has failed. L. M. Ruggles, Reasnor, Iowa, writes: "The doctors said I had consumption, and I got no better until I took Foley's Honey and Tar. It stopped the hemorrhages and pain in my lungs and they are now as sound as a bullet." Dreier Bros.

GRAND RAPIDS CAME FROM REAR AND WON OUT

Terre Haute Had Big Lead —South Bend Takes a Game.

Grand Rapids, Mich., July 13.—Terre Haute went after Leon Webb, of the Stag pitching staff, in the two first innings of the first game of the present series and took a lead of seven runs and the affair looked like a copper-riveted cinch for the visitors, but the locals drove Asher out of the box and won off Douthett in the last half of the ninth inning. The score.

	R.	H.	E.
Grand Rapids	8	8	4
Terre Haute	7	7	3

Batteries—Webb, Brown, Humphries and Bailey; Asher, Douthett and Goes.

MARQUARD GETS HIS IN THE SECOND STRUGGLE

Mathewson Subdues the Pirates in First Game —The Scores.

New York, July 13.—New York and Pittsburg split up a double-header, the home team being successful in the first game, 3 to 2, and being defeated in the second, 9 to 0. Doyle's double in the seventh inning of the initial contest changed the complexion of the contest between Willis and Mathewson. The local twirler did not allow a hit after the fourth. In the second game Camnitz came near blanking the New Yorks in hits as well as in runs. The one safety made off him was a scratch bunt by Marquard. The visitors had no trouble in hitting Marquard, whose wildness also was costly. The paid attendance at the six games of the series was over 90,000. Score of first game:

	R.	H.	E.
Pittsburg	2	4	3
New York	3	9	0

Batteries—Willis and Gibson; Mathewson and Schlei.

Two-base hits—Leach, Miller, Doyle. Three-base hit—McCormick. Sacrifice hit—Tenney. Stolen bases—Bridwell, Wagner, Devlin. Double plays—Bridwell to Doyle to Tenney; Wilson to Gibson. Struck out—By Mathewson, 3; by Willis, 1. Bases on balls—Off Mathewson, 1. Time of game—1:25. Umpires—Emslie and O'Day.

Score second game:

	R.	H.	E.
Pittsburg	9	11	1
New York	0	1	3

Batteries—Camnitz and Gibson; Marquard, Schlei and Wilson.

Two-base hit—Miller. Three-base hit—Clarke. Sacrifice hits—Clarke, Leach, Storke. Stolen bases—Murray (2). Double plays—O'Hara to Schlei, Devlin to Doyle, Bridwell to Tenney. Struck out—By Marquard, 3; by Camnitz, 4. Bases on balls—Off Marquard, 4; off Camnitz, 2. Hit by pitcher—By Marquard, Leach, Wilson and Clarke. Wild pitch—Marquard. Time of game—1:43. Umpires—O'Day and Emslie.

BOSTON, 4; ST. LOUIS, 3.

STRENGTH, AMBITION, ENERGY

Are Impossible Without Rich, Red Blood—A Detroit Woman Expresses an Opinion.

The tonic treatment with Dr. Williams' Pink Pills for run-down conditions of the health is based on sound medical principles and on common sense. More and more men and women are beginning to realize that pure, red blood means health and that the efficiency of any tissue or organ is entirely dependent upon the quality of the blood.

There are thousands of people, who are without ambition or strength to do their day's work and who are always tired out, have but little appetite and a poor digestion, cannot get a refreshing night's sleep and are subject to headaches, backaches and nervousness because their blood is impure.

Dr. Williams' Pink Pills give quick relief and permanently cure such men and women because they purify and build up the blood to its normal strength. As the blood becomes pure and red it strengthens the muscles, tones up the nerves, makes the stomach capable of digesting the food, and repairs the wastes caused by growth and work.

Mrs. George Morgan, of No. 115 Twenty-third street, Detroit, Mich., says:

"I suffered with general debility for over a year after gradually declining in health from overwork. I had but little blood, no strength or ambition and was weak and thin. My appetite was poor. I was reduced in flesh and was all tired out. I felt miserable all the time and could not do any work. I was sent on a visit to relatives with the hope that a change would benefit me, but after several weeks I had not improved.

"Most of this time I was taking the doctor's medicine without benefit and was getting discouraged. My aunt urged me to try Dr. Williams' Pink Pills. They gave me a better appetite, I gained in flesh and strength and took the pills until cured. Since then I have been strong, robust and healthy."

A booklet, "Diseases of the Blood," showing what Dr. Williams' Pink Pills have done in anaemia and other blood diseases, will be sent free upon request.

Dr. Williams' Pink Pills are sold by all druggists, or sent by mail, postpaid, on receipt of price, 50 cents per box; six boxes for $2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

STARGAZERS TAKE MT. WHITNEY

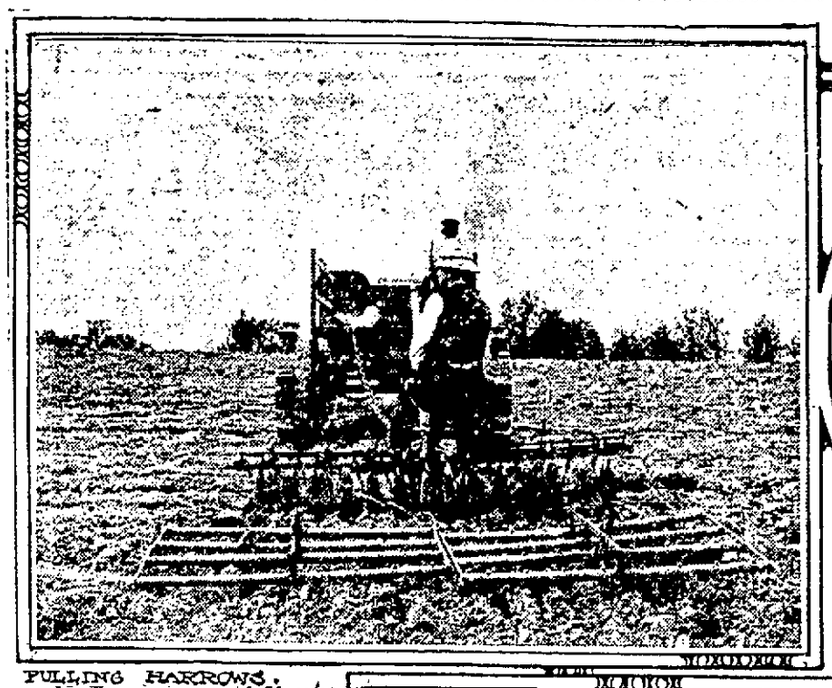
Smithsonian Institution to Erect Observatory 14,000 Feet Above Sea.

San Francisco, Cal., July 13.—A meteorological and astronomical observation station at an altitude of about 14,000 feet is to be erected on Mount Whitney by the Smithsonian institution.

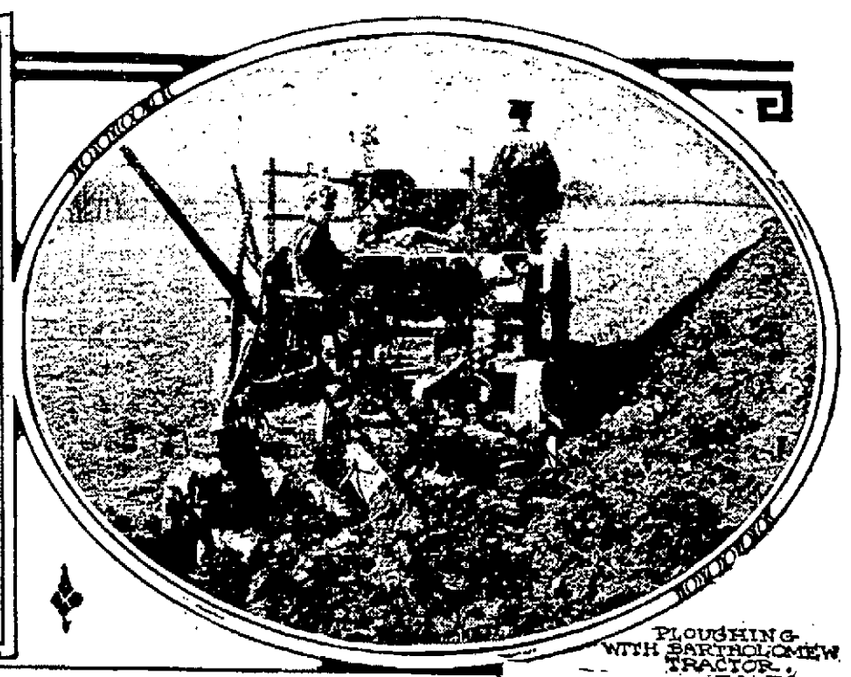
The work of preparing the trail up the mountain over which the material will be transported by pack mules is already under way.

It is said that the station, which will be temporary, will be completed by the first of September, when Prof. W. W. Campbell and Prof. Abbott, of the Lick observatory, will go to Mount Whitney to make spectroscopic observations, and data will also be gathered on atmospheric conditions at that altitude.

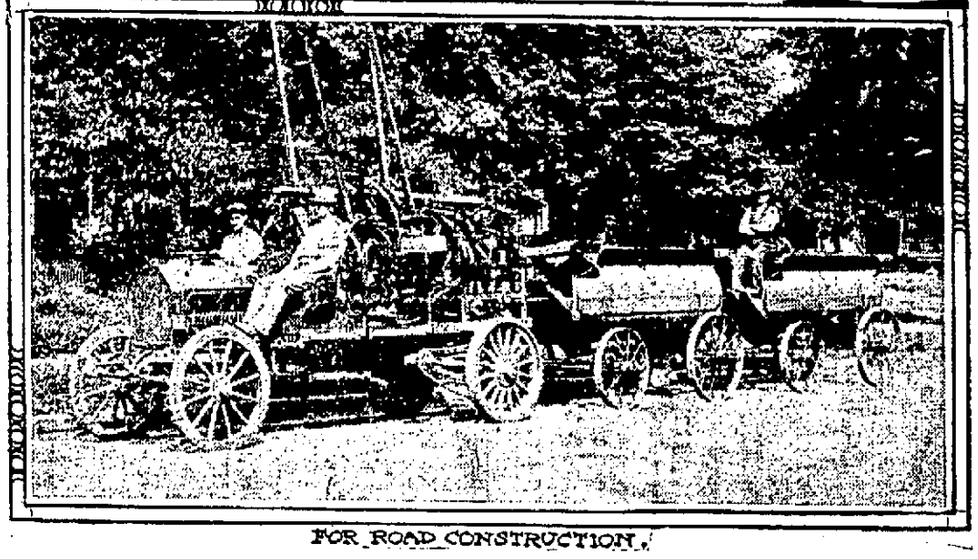
THE TRACTOR FOR ROAD CONSTRUCTION AND FARMING



PULLING HARROWS.



PLOUGHING WITH BARTHOLOMEW TRACTOR.



FOR ROAD CONSTRUCTION.

Just as the passenger vehicle is appealing to the farmer, so is the heavy tractor, designed to do the work of several horses on the average American farm, finding a place. Only in recent years have inventors considered seriously the possibility of constructing machines to do all the work of the farmer, but they are gradually turning out what is required, and it seems to be only a question of price that stands between the tiller of the soil and the acquirement of a motor driven machine that will do its work properly and require little attention.

The northwest is especially interested in farm traction, as shown by the series of trials conducted last year at the Winnipeg Industrial exhibition, when very successful tests were made for a number of valuable prizes. The exhibition will be repeated from July 9 to 17 of this year, when a second lot of trials will be held for light motor vehicles designed for farm work. The machines will be divided into four classes, graded on brake horse power, and without any restriction regarding fuel other than that it shall be readily procured in Canada.

The tractor has a four cylinder gasolene motor mounted in front. The chassis will carry either a truck or a box, a rack or any form of bed for hauling loads, and will pull three or four fourteen inch plows or a drag or scraper for smoothing public roads and hauling loads on ordinary farm wagons or other vehicles.

The motor shaft extending in front is to be provided with suitable pulley, and can be used to shell corn or run a farmer's thresher. It will pump water, saw wood, bale hay and do various other work which is ordinarily done by machinery on the farm.

Literally the word "rajah" means "king;" and "maharapah," the "great king," or ruler over several kings; but, generally speaking, the titles "rajah," "maharajah" and "nawab" have no greater significance than the words "feudal lords," as used in mediaeval times in Europe. Many of them have been made by the will of the reigning chief; many bestowed for meritorious acts and deeds.

SEEKS DIVORCE AND PUTS BLAME ON MINISTER

Pittsburger Says Preacher Aided Wife to Give Him Beating.

Pittsburg, Pa., July 13.—Trustee C. H. Nichols of the First Pentacostal church of the north side has entered a suit for absolute divorce against his wife, Mary B. Nichols, leader of the church choir, naming the Rev. Ralph Elliott, pastor of the church, as co-respondent. Every effort has been made to keep the matter quiet. The case bids fair to be one of the most sensational affairs, as the Rev. Mr. Elliott has been one of the prominent figures of the north side.

Says Pastor Beat Him.

It is set forth by the husband in his petition that when he caughht his wife in the arms of the minister and started to upbraid them they both attacked him and knocked him down, and that it was only by the use of a club that he was able to save himself from a severe beating.

Nichols says the minister pulled a billy on him, and that he has a billy to submit as evidence, as he took it from the minister and chased him into the street without hat or coat.

The Rev. Mr. Elliott some days later, he says, appeared at an alderman's office as the principal witness for Mrs. Nichols in a suit for aggravated assault and battery she instituted against her husband. Nichols has been held for court on the minister's testimony.

Petitioner Helped Build Church.

It appears that the Rev. Mr. Elliott, who is married and a grandfather, came to North Side last spring and began preaching in a tent. Nichols, who is a well to do railroad man, became interested in the religious work and gave part of his savings toward the building of a church, of which he was made a trustee. Mrs. Nichols, who is 40 years and who has a daughter of 18 years, took charge of the choir work.

Some days since Irene, the daughter, discovered a letter written to her mother by the minister, in which he said he would call on her at a certain time on the day following. She took the letter to her father, who says he waited for the minister and slipped into the room in time to find the Rev. Mr. Elliott making violent love to Mrs. Nichols, who was reciprocating.

MR. SCHERER COMMENDED.

Labor Federation Favors His Candidacy for Mayor.

The Fort Wayne Federation of Labor, at its meeting Monday evening, adopted the following resolutions, which were submitted by its committee, composed of F. Lichtenwalter and F. DeFrain:

"Whereas, Henry P. Scherer for a number of years a member of this central body and at present an officer thereof, is a candidate for the nomination for mayor of Fort Wayne; and

"Whereas, It has been stated through the public press in an ostensible attempt to prejudice his candidacy, that he had asked for and had failed to secure the endorsement of this body at a previous meeting, which statement we hereby declare to be wholly untrue; therefore be it

"Resolved, That the Fort Wayne Federation of Labor recognizes in Henry P. Scherer not only a true friend of organized labor and the principles it espouses, but an active and earnest worker in the ranks thereof; that he has never hesitated or faltered in the discharge of any of the sometimes arduous and disagreeable duties imposed upon him as a member and officer of this federation; that his intelligent and valued counsel has frequently been of great assistance in the amicable settlement of serious controversies between employer and employe, and that we do, without regard to political affiliation and without prejudice to any other friendly candidate, commend him to the union voters of Fort Wayne for their suffrages; and be it further

"Resolved, That this federation hereby pledges its official integrity that Henry P. Scherer has made no promises or pledges of any character to it as a body and so far as it knows to no members thereof as an individual, of preferment or reward in case of his election and that this commendation is inspired solely by our confidence in him, based upon his record in the past. And be it further

"Resolved, That these resolutions be spread upon our records, be printed in our official paper, the Labor Times-Herald, and that the daily press be requested to give them the same prominence as was given the erroneous statements referred to in the preamble hereto."

HIT BY MONDAY'S STORM.

One House Struck by Lightnig and Other Minor Damage Done.

The home of S. L. Zeimmer, on rural route No. 6, was struck by lightning during the storm Monday afternoon and considerably damaged. Further damage of a minor character is reported in the city.

The structure of the Diamond airdome was partially wrecked by the wind, there were street washouts at many points and dozens of cellars and basements were inundated temporarily by the tremendous volume of water which fell in an hour.

In some sections of the county standing crops were blown down by the gale.

A CHOIR OF CANARY BIRDS CHANTS IN CHURCH

Cincinnati Baptists Took Many Songbirds to Aid in Services.

Cincinnati, O., July 13.—The presence of thirty-five canary birds as a part of the choir and participating in the Sabbath morning musical program constituted a unique innovation in the regular religious services at Lincoln Park Institution Baptist church Sunday.

The idea of calling birds into commission as a part of the choir was original with the pastor, the Rev. George R. Robbins, and the use of the canaries along with the choir voices and the great church organ, it was declared by members of the congregation, added greatly to the choir service.

The sermon was based upon the text, "Who are these that come flying through the air like doves?"

The regular song service preceded the discourse by the Rev. Mr. Robbins. Members of the congregation had been charged in advance to bring with them as many canaries as were available. The birds began their chirping with the first strains from the choir and ceased when the music did.

The keeping of musical time was noticeable, especially in the observance of the slight intermission between voices of the songs. Dr. Robbins and many members of the congregation did not hesitate to assert that the features of the canaries added much to the service.

During the praying and preaching the songsters conducted themselves with remarkable decorum, but when the organ was played and the choirmaster waved his baton the most beautiful music ever song in the church came forth. This was kept up for three periods of ten minutes each.

The pastor said he wanted his hearers to take a lesson for plain and honest living from the birds, and his bringing them there was for the purpose of showing his congregation that the beauty of nature ought always to be appreciated.

CURES PIMPLES QUICKLY.

Simple Remedy That Soon Clears Skin of All Eruptions.

For several weeks past Meyer Bros. Co. have done the biggest business they ever had in any one article in selling Hokara, the skin food that has won so many friends in Fort Wayne.

It has been found to be an absolute cure, not only for all minor skin troubles such as pimples, blackheads, herpes, acne, scaly scalp, complexion blemishes, itching feet, piles, etc., but for the worst sores, ulcers, or even chronic eczema and salt rheum. There has yet to be found any form of wound or disease affecting the skin or mucus membrane that Hokara does not heal, and its action is so instantaneous that those who try it are simply delighted with it right from the start.

In spite of its unusual curative powers, the price is trifling. To convince every one of its merits Meyer Bros. Co., will sell a liberal sized jar for 25c; larger size, 50c. And remember that if you do not think it does what it claims, you get your money back. You certainly can afford to try it on this plan.

Madam, See What You Lose On 5-Cent Cans

The 10-cent cans of Van Camp's Milk give you sixteen ounces—the 5-cent cans only six ounces. Note how much this means.

You get six ounces of evaporated milk in a 5-cent can of Van Camp's.

But you get sixteen ounces in the 10-cent can—a full pint. And you get the same milk in both.

That is one of the ways in which you lose money by buying the 5-cent can. Let us explain them all.

No Maker Gives More

No maker gives more than six ounces of evaporated milk for five cents.

Thin milk, with too little water evaporated, costs just the same as Van Camp's.

So you get just as much of Van Camp's as you get of the poorest milk on the market.

But you spend more than you ought when you buy any milk in the 5-cent size.

Figure It Out

Van Camp's is simply rich Holstein milk, with two-thirds the water evaporated.

The milk as it comes to you is 28 per cent solids, 8 per cent butter fat.

If you replace the water which we take out, you should get rich milk for about six cents per quart.

That is based on buying the 10-cent cans, and buying them by the case. For grocers give discounts on cases.

But the 5-cent cans—even when bought by the case—make the milk cost you over eight cents per quart when you replace the water.

So you will see you are paying just one-third more when you buy the 5-cent cans.

Our Object Is This

It may seem better for us to sell six ounces for 5 cents than sixteen ounces for 10 cents.

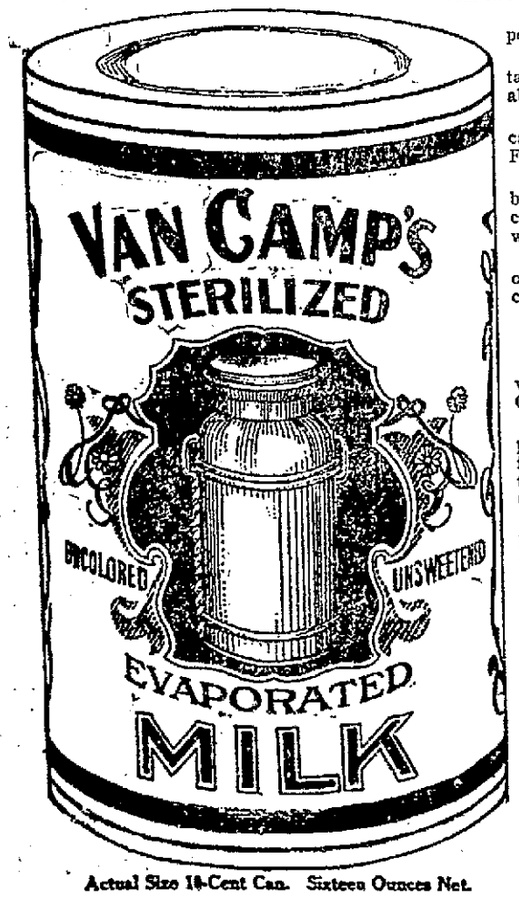
But it isn't. Our interest lies in making this milk economical. It should completely displace milkman's milk.

Van Camp's Milk serves every purpose fully twice better than raw milk. You will use more of it when you learn these facts, and learn the economical can.

Then the usual milk sold in 5-cent cans is often a vastly inferior milk.

So we urge you to buy the 10-cent cans and get the full worth of your money.

And don't buy from day to day, as you bought milkman's milk. Buy a case at a time and get the case discount. Then you will have the best milk in America for less than poor milk costs.



Actual Size 10-Cent Can. Sixteen Ounces Net.

Use It for Cooking

The trouble is here: Most people who buy the 5-cent cans don't use Van Camp's for cooking.

They use it for coffee and cereals, perhaps. But they still use raw milk for making milk dishes. And there they lose the greatest service that Van Camp's Milk can render.

Milk dishes made with Van Camp's have a flavor and richness which raw milk never gives. You will use Van Camp's forever when you once learn the difference.

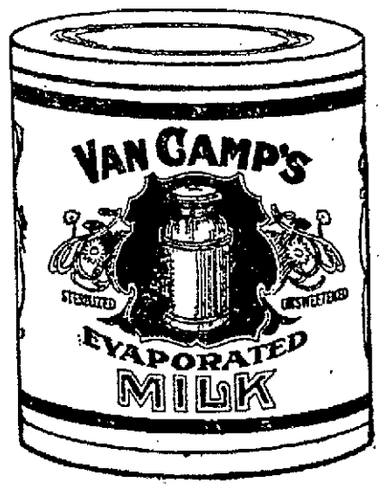
The reason is that raw milk separates. The butter fat rises and the solids fall. When milkman's milk is used in cooking, it generally comes very far from whole milk.

Van Camp's is whole milk. It has all of the butter fat, all of the solids it had when it came from the cow. It will make your milk dishes twice as delicious as dishes made of raw milk.

Van Camp's Milk Keeps

Van Camp's Milk will keep because it is thoroughly sterilized. An opened can will keep 24 hours in ordinary weather. It will keep 48 hours or longer on ice.

If you use only part, you can leave the rest in the can and use it next day. You don't need to buy in small cans for fear the opened cans will spoil.



Actual Size 5-Cent Can. Six Ounces Net.

THE SHOP AND RAILROAD NEWS

PURCHASING AGENT OF WABASH WILL RESIGN

C. A. How to Take Position With the Missouri Pacific.

Some changes are going to be made in the supplies department of the Wabash August 1, according to news brought here from St. Louis. On that date C. A. How will retire from the office of purchasing agent to take a better position with the Missouri Pacific company. Mr. How has been with the Wabash several years and for two or three years has been at the head of the supplies department. He makes frequent visits to all important towns on the Wabash lines and has a wide acquaintance with the people. His successor has not been named.

ANOTHER BRASS BAND.

Electric Works Employes Organize for Annual Excursion.

The Fort Wayne Electric Works Employes' Brass band is the name of a new musical organization in this city which came into existence during the past three or four weeks. Twelve of the members are employes of the Electric company and eight are employed elsewhere. The movement was started simply to furnish a band for the annual excursion of the Electric works boys and their friends to Cedar Point on Saturday, July 24, and it was intended to limit the membership to men employed at the works, there being a number who are musicians and members of other bands in the city, but others expressed a desire to join and possibly make a permanent organization and they were admitted. The band will make its first public appearance on the date mentioned, when it will march to the depot, play several pieces while the people are gathering, and then go on the train and accompany the excursionists to Cedar Point. Ralph Kapp, of the production department of the Electric works, is the leader of the band. He is also a member of the Citizens' band.

WILL EXPEND MILLIONS.

New York Central Plans Great Work.

It is officially announced that the New York Central system has made plans entailing the expenditure of $21,488,755 during the current year for various important improvements. Application has been made to the New York Public Service commission for its approval of the necessary financial arrangements involved. A large part of this sum will be appropriated for continuing the work which has been in progress during the last three years on the electrification of the New York terminals and station improvements at the Grand Central station.

Additional electrification work will be done on the West Shore line, which now has some sixty miles operated by electric motor cars. The work now contemplated will be between Utica and Syracuse.

The improvements also include a large amount of grade crossing elimination at Buffalo and Rochester; double tracking and grade revision on the West Shore between Syracuse and Buffalo; new passenger stations at Ogdensburg and Watertown, N. Y.; double tracking the Rome, Watertown and Ogdensburg division between Watertown Junction and Adams; improvements at West Albany, N. Y., and a large amount of new equipment.

TICKETS TO BE EXTENDED.

Agent W. H. Shorey, of the Wabash, was this morning advised of the intention to put on the market on the occasion of the employes' excursion to Detroit a ticket good returning on any train Monday following the excursion date. On these tickets the passenger will go by rail to Toledo and thence by boat, but returning will be good only on the all rail route from Detroit. They will be sold at $2, a slight advance over the regular excursion ticket. The excursion is to be on Saturday, July 31.

JOHN PAGE AT SANITARIUM.

Baggageman John Page, of the Pennsylvania, who has been sick and unable to work for the past year, is at Hot Springs taking treatment for a dropsical affection and hopes to be benefited by it. Mr. Page resides at Crestline at present, but he formerly lived here and is well known in railway circles. He is a brother to Machinist W. G. Page, of the Pennsylvania round house.

WORKED IN STORM.

It was the lot of the Wabash switchmen to have to work out during the worst of the storm yesterday afternoon and each man was soaked to the skin. When the storm was at its worst a passenger train and two fast freight trains came into the yards and demanded immediate attention from the switchmen. The men declare the storm the worst they ever saw.

TRIP WAS SUCCESSFUL.

National Organizer L. D. Redding, of the Meat Cutters and Butcher Workmen, is in the city for a few days' stay after successfully organizing a union at Terre Haute and laying the foundation for another union at Muncie. He will return to Terre Haute to install the officers next Sunday. The new union will have about fifty members.

ATLANTIC CITY EXCURSION.

The local agent of the Wabash received notice this morning that the company would have two Atlantic City excursions with a fifteen day limit this summer. The first will be on Thursday, July 22, and the second will be on August 6. Stop over privileges will be granted the excursionists at Detroit, Niagara Falls and Philadelphia.

FOOT PAINFULLY BRUISED.

TO PLAY IN TOLEDO.

The Pennsylvania shop and round house employes' ball team will play the round house team at Toledo Aug. 7. Frank Scheid, general round house foreman at Toledo, made arrangements for the game when he was here a short time ago.

COULDN'T FOOL HIM

Doctor Was Firm and Was Right.

Many doctors forbid their patients to drink coffee but the patients still drink it on the sly and thus spoil all the doctor's efforts, and keep themselves sick.

Sometimes the doctor makes sure that the patient is not drinking coffee and there was a case of that kind in St. Paul, where a business man said:

"After a very severe illness last winter which almost caused my death, the doctor said Postum was the only thing that I could drink and he just made me quit coffee and drink Postum. My illness was caused by indigestion from the use of tea and coffee.

"The state of my stomach was so bad that it became terribly inflamed and finally resulted in a rupture. I had not drunk Postum very long before my lost blood was restored and my stomach was well and strong and I have now been using Postum for almost a year. When I got up from bed after my illness I weighed 98 pounds and now my weight is 120.

"There is no doubt that Postum was the cause of this wonderful improvement. I shall never go back to tea or coffee but shall always stick to the food drink that brought me back to health and strength."

Look for the little book, "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

SOME RAILWAY VISITORS.

Machinists Oscar Schirmeyer and A. A. Arter resumed work at the Pennsylvania shops this morning. They had been sick.

The family of William Dowill, of the Wabash machine shop, has returned from a pleasure trip to Buffalo and Niagara Falls.

Al Buchheit has completed a vacation term and this morning resumed his duties at the desk in the Electric works' office.

Brakeman F. H. Davis, who was spending two weeks with relatives at Lima, resumed work on the Nickel Plate this morning.

The Packard base ball team will play ball at Garrett next Sunday with a team which has thirteen out of fourteen games to its credit.

A. B. Adams, general roadmaster of the Wabash, was in the city today looking after some business for the maintenance of way department.

Nickel Plate Fireman F. Brewster was summoned to Buffalo yesterday by news of the serious illness of his mother, who resides in that city.

Blacksmith Peter Spanley, of the Pennsylvania, and his wife are entertaining Mrs. Jensen, the mother of Mrs. Spanley, who resides in Gary.

Chief Clerk F. S. Doriot resumed his duties in the Pennsylvania master mechanic's office this morning, after an absence of a week on account of a lame foot.

Engineer M. F. McCarthy took his run out on the Nickel Plate yesterday, after a week's sojourn at Lake James. His family was with him at the lakes.

No. 4, on the G. R. & I. will have an extra sleeper out of here tomorrow night for the accommodation of the Fort Wayne ball team, which will go to Zanesville.

George Anderson, of the receiving department of the Electric works, was at Lake James yesterday, fishing with his father, E. G. Anderson, who will remain there several days.

Nickel Plate Fireman J. D. Bright has returned from Tippecanoe, Ind., where he went with his wife several days ago for a visit. Mrs. Bright will remain there several days longer.

T. J. Smethers and wife have returned from a week's sojourn in the country and he resumed his duties in the office of the production department of the Electric works this morning.

Conductor B. A. Dent has returned from Fremont, Mich., near which place he spent a week or two with a party of friends in fishing at a lake. Mr. Dent has reported for work on the Nickel Plate.

Engineer and Mrs. Charles Bromelmeier and children went to Cleveland yesterday and thence they go to Buffalo to spend a week or two. Mr. Bromelmeier is employed on the Nickel Plate.

M. S. Willson, of the Electric works, severely sprained his back yesterday and is incapacitated for duty thereby. Mr. Willson had his back injured severely several months ago and was off duty then on account of it.

The Pearls' ball club, composed chiefly of young men at the Electric works, will play the Mentone team next Sunday, going to that village on Nickel Plate train No. 5, which leaves the city at 2:10 a. m.

John Rodenbaugh, the attorney, has placed a contract for the extension of his three-story brick building on Calhoun street to the alley. The building is located between Douglas avenue and Brackenridge street.

Assistant Foreman P. F. Landy, of the Pennsylvania shops, is out with passenger engine 7617 today, making notes of her performances in the way of speed and power. This engine has just left the shops, after receiving repairs.

William J. Strairiker, traveling freight agent of the Delaware and Hudson company, was calling on shippers in the city this morning. He was accompanied about the city by H. M. Quicksell, of the Star Union line. Lyon Listen, of the Union Pacific, was also in the city today. R. V. Miller, of the Wabash, and W. P. Genther, of the Northwestern, were in the city yesterday.

The Big Four officials feel proud of the performance of a heavy passenger train last Friday, which covered the 142 miles between Bellefontaine and Indianapolis in three hours and two minutes, nearly as fast as some of the high class freight trains over the lines in this section of country.

W. J. Aubrey, a pipefitter employed in the Rock Island shops at Moline, Ill., is here to spend a vacation with relatives and friends. He was formerly employed in the Pennsylvania shops, leaving that works four years ago with others who went to the Rock Island.

F. C. Walda to Cleveland; Mrs. A. Ball to Cincinnati; R. L. Wollert, wife and children to Buffalo are visits that have been planned for the latter part of this week. The gentlemen named are Pennsylvania shopmen and Mrs. Ball's husband is a car builder at the east shops.

Roy F. Gale, a Nickel Plate dispatcher, who is spending his vacation at Banning, Ontario, with his brother, has written the "boys" in the office that he is having great sport in fishing in a lake near that place. He has made catches that would be phonomenal at any of the lakes in Indiana. Mr. Gale will return early next week.

As the result of the transfer of Conductor Samuel Deahl to the position of general yardmaster at Fort Wayne for the Nickel Plate, several changes have taken place among the trainmen. Conductor C. A. Bowman has been advanced to extra passenger conductor, A. B. VanMeter has taken the local between this city and Leipsic, with the Fort Wayne lay over, and Charles Snyder has been transferred to the Leipsic lay over on the local freight run between this city and Leipsic. He formerly had his lay over at Fort Wayne.

Electric locomotives, to be operated in the Detroit tunnel of the Michigan Central between Windsor, Ontario and Detroit, have some features not previously included in design for this class of motive power. The motors are an improvement over previous types, more in regard to detail than the general pattern. In trucks and wheel arrangement the design of the locomotives built for the Great Northern is followed. The distribution of the weight of the motors over the entire length of the wheel base, it is believed, will be a very useful feature.

GREAT CLEANING IS MADE IN NAGEL'S DEPARTMENT

Secretary of Commerce and Labor Gets Rid of a Lot of Dead Ones.

Washington, D. C., July 13.—The greatest "shakeup" that ever has occurred in the personnel of the department of commerce and labor took place yesterday when approximately one hundred employes were reduced and the resignations of about ten others accepted.

This action was taken by Secretary Nagel as the result of an investigation into the "efficiency records" of the employes in his department. The reductions were made, it is stated, because the employes were found to have "loafed on the job," while those allowed to resign were found to be inefficient.

More Will Come Under Fire.

The secretary's determination to inject new life into the work of his department prompted today's radical step. Further reductions are to be made and resignations asked for, it was intimated today, as soon as Secretary Nagel completes his examination of the efficiency report. Many of the clerks will receive promotions as a result of yesterday's changes.

For more than a month the employes of the department have been on the "uneasy bench," and today's developments caused considerable consternation among them. Many of the employes made vain attempts to discuss their cases with Secretary Nagel in the hope of inducing him to reconsider his action as it applied to them.

Report Awakens Slumbering Ones.

Believing that there was considerable "dead timber" in his department, Secretary Nagel about six weeks ago instituted a searching investigation. He directed the various bureau chiefs to prepare for him a bona fide report upon the efficiency record of the employes under their jurisdiction from the highest salaried clerks down to messengers.

As a result of these reports it was found that about 9 or 10 per cent of the clerks were deficient to a greater or lesser extent. A strange feature of the matter is that since the reports were made the efficiency record of the employes in the department has increased about 30 per cent.

College Men Who Thrashed Quarrelsome Hotel Man Exonerated.

Colorado Springs, Colo., July 13.—John A. Clarke and George Shipley, the Dartmouth college graduates charged with making an assault with intent to kill upon Howard H. Robinson, manager of the Summitt House at the top of Pike's Peak, were completely exonerated in the justice court yesterday afternoon. The court stated that the evidence tended to show conclusively that the assault was initiated by the complaining witness, and that in his belief the defendants did not exceed the bounds permitted them in defending themselves. The court stated that in his opinion the first duty of a hotel proprietor or manager is civility and that the evidence tended to bring out that in the past Robinson had shown a quarrelsome disposition.

Sun Plays Havoc With Fair Bathers At Atlantic City

Splashing, playing, laughing, a bevy of society beauties were enjoying the bathing hour at Atlantic City.

It was an exceedingly hot day, but the blazing sun had no terrors when hot flesh was soothed by the cooling waters of old ocean. A dip—a plunge—then lolling in the sand, the fun was high, the enjoyment supreme.

The bath was finished. The girls, after dressing and lunch, gathered to discuss the ball to take place that evening, an event expected to eclipse all else of the season.

As the time drew near, consternation rapidly took the place of anticipated pleasure as the discolorations of tan and pains of the sun's burnings began to appear. In an agony of distress, both bodily and at the thought of being forced to miss the season's event nearly brought tears, until one quick-witted young lady suddenly suggested a visit to the drug store, and the leaving of their fate in the hands of the druggist.

The explanation of the situation was simple. They were suffering untold agony from burns and blisters on face, neck and arms, due to their basking in the hot sun. Likewise mental agony was acute because of the impossibility of wearing a low neck ball dress with necks burned brown and peeling.

Numerous packages were handed the ladies with simple directions how to use. A quick trip to hotel, seclusion in their rooms—and the ball that night paid respect to a bevy of girls looking the perfection of healthful beauty and enjoying every moment.

The druggist disclosed the fact that the secret of perfect protection from the action of sun and sea water lies in the use of By-lo Talcum Powder. Being medicated By-lo quickly relieves the sting and burn and prevents the unsightly peeling off of the skin.

By-lo Talcum Powder is so light and fluffy as to be almost invisible on the skin, hence sun-burn brown is easily hidden without the cause being detected.

Made from the purest air-floating Italian Talc, medicated and daintily perfumed with a distinctive violet odor By-lo Talcum Powder represents perfection for all toilet uses. It softens, soothes, and smoothes the skin, cooling and healing and imparting beautiful appearance and odor to the skin.

There is no more perfect or useful toilet adjunct possible to produce than By-lo Talcum Powder, and every home, kit, or traveling bag should contain a box. By-lo is for sale at high-class drug stores.

MELILLA

Madrid, July 12.—Private telegrams confirm the report of the attack by the Kabyles of the tribe of Beni Bufrosor Nador on the workmen of the Riff Mining company.

The engagement of the troops of General Marina, which attacked Kasbah, of Atalayon, was of a most desperate nature. Kasbah had to be carried at the point of the bayonet, at a heavy cost in killed and wounded.

The news of this engagement has created an enormous sensation throughout Spain. The minister of war is in constant telephonic communication with the king and the government has decided to send strong reinforcements at once to Melilla.

The present outbreak in Morocco comes at a peculiarly inopportune time, so far as the interests of the sultan are concerned, for even now he has an embassy in Europe seeking more time for the fulfillment of certain obligations imposed upon him by the Algeciras convention with regard to the holding of property by foreigners in Morocco. These messengers were in Paris only a few days ago and they contemplate visiting other capitals, but it is not at all impossible that their mission will be set at naught by prevailing conditions.

J. S. Finkenbiner, formerly of Huntington and Fort Wayne, where he represented the Singer Sewing Machine company, died Sunday in St. Louis. He was one of the active spirits in the organization and operation of the Louisiana Purchase exposition at St. Louis a few years ago.

Mrs. Andrew Zink, of Bowerstown, Huntington county, underwent an operation for gallstones on Saturday and before the surgeons finished the job 133 stones had been removed. Her condition, which had been very serious for months, is now much improved and she will recover.

Slowly suffocating as she lay sound asleep in her burning home, Mrs. Florentine Goosens, an aged Hartford City woman, was rescued from a horrible death Saturday night by Walter and Joseph Powell, who found the house in flames and carried the unconscious woman from the fire-doomed building.

Mrs. Frank Baker, who resides at Stroh, was seriously burned on Saturday at her home in that place by her clothes catching fire from a burning cloth which had been thrown out of a neighbor's house into the potato patch where Mrs. Baker was working. The cloth caught fire from a gasoline stove and the neighbor threw it out of the window, unintentionally so near to Mrs. Baker that her clothes caught fire. She was quite badly burned before the flames could be extinguished.

The dredging of the Salamonie river in Jay county and eastern Blackford county, a total distance of eleven miles, will cost, it is estimated by the viewers, a total of about $80,000. The contract will be let at Portland on July 27. There will be, it is estimated, 786,195 cubic yards of dirt and 53,389 cubic yards of rock to be removed, and the excavated material must be placed at least ten feet from the banks. At the beginning of the work near Pennville, where the dredging of the upper section of the river several years ago stopped, the bottom of the ditch is to be 40 feet in width. From that it gradually widens to 65 feet, which it maintains to the end near Matamoras.

THE ONLY WAY

Many Fort Wayne Citizens Have Discovered It.

Just what to do when the kidneys are affected, is a question that concerns both young and old. Weak kidneys neglected in childhood lead to life-long suffering. People of advanced years, with less vitality, suffer doubly. In youth or age, languor, backache, urinary irregularity, dizziness and nervousness make life a burden.

There is one remedy that acts directly on the kidneys and cures these troubles. Doan's Kidney Pills owe their world-wide fame to the fact that they cure sick kidneys and cure them permanently. Follow the example of this Fort Wayne citizen and you will be convinced that this is so.

Joseph R. Sunderland, retired, 650 Putnam street, Fort Wayne, Ind., says: "I have been so greatly benefited by Doan's Kidney Pills that I consider it my duty to endorse them. I suffered for several years from severe pains in my kidneys, coupled with a kidney weakness that caused me no end of annoyance. Since using Doan's Kidney Pills, procured at Meyer Bros. Company's drug store, my back has been strong and free from pain and my kidneys have given me much less trouble. I intend to continue taking this remedy, as I firmly believe that it will speedily restore me to good health."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

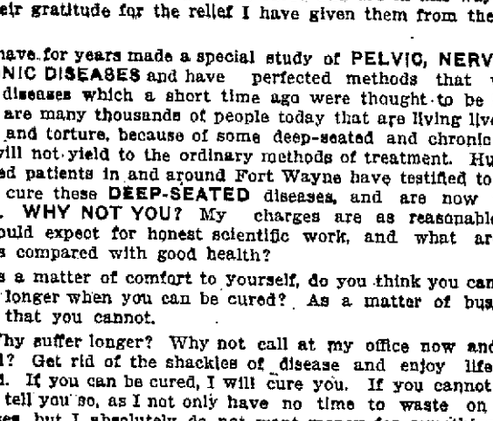
I Cure Pelvic, Nervous and Chronic Diseases,



OTHERS TREAT, BUT I CURE

REDUCED FEES—For the purpose of proving the advantages of my original methods in the treatment of PELVIC, NERVOUS and CHRONIC diseases, I will not only give to everyone who calls at my office before August 1 a careful and thorough examination FREE OF CHARGE, but to further demonstrate to the public the rapidity and thoroughness of the CURES I make I will treat every case that I accept for a cure between now and August 1 at a GREATLY REDUCED FEE.

DO NOT EXPERIMENT WITH YOUR HEALTH, but go to a doctor who is capable of treating your case right. Go to a doctor who has [illegible] and who you know will be where you can find him. Go to a doctor who has built up a reputation that he cannot afford to lose if you want to get the right kind of treatment. I have been in Fort Wayne a long time. Have a permanent business established. Have hundreds of letters on file from the many satisfied patients whom I have cured, and every day brings me patients who have been sent me by those whom I have cured and are in this way expressing their gratitude for the relief I have given them from their suffering.

I have for years made a special study of PELVIC, NERVOUS and CHRONIC DISEASES and have perfected methods that will cure these diseases which a short time ago were thought to be incurable. There are many thousands of people today that are living lives of suffering and torture, because of some deep-seated and chronic affliction that will not yield to the ordinary methods of treatment. Hundreds of satisfied patients in and around Fort Wayne have testified to my ability to cure these DEEP-SEATED diseases, and are now well and happy. WHY NOT YOU? My charges are as reasonable as any one could expect for honest scientific work, and what are a few dollars compared with good health?

As a matter of comfort to yourself, do you think you can afford to suffer longer when you can be cured? As a matter of business you know that you cannot.

Why suffer longer? Why not call at my office now and be convinced? Get rid of the shackles of disease and enjoy life as you should. If you can be cured, I will cure you. If you cannot be cured I will tell you so, as I not only have no time to waste on incurable diseases, but I absolutely do not want money for something I do not do. I can give you plenty of references among some of the best people in Fort Wayne and within a radius of one hundred miles. Many doctors are sending me their difficult cases, knowing that their patients will receive proper treatment. Can any references be better?

EXAMINATION—I learn the exact condition of the rectum, the bladder and every organ of the genito-urinary system. This in itself is of the highest importance, inasmuch as a broken-down nervous system and many more of the troubles of the STOMACH, LIVER, HEART, KIDNEYS, ETC., are reflex and are the direct results of some PELVIC LESION OR DISEASE.

RUPTURE QUICKLY and PERMANENTLY CURED. I cure Rupture by my special methods which I have used for years and have not a single failure to record. This is done in a few treatments, without pain and without any loss of time. Many of these I have cured after having unsuccessfully undergone surgical treatment.

VARICOCELE, STRICTURE, RUPTURE, PILES, FISTULA, ETC., cured without knife and without detention from business.

BLOOD POISON—I use only the most advanced methods in the treatment of blood poison and kindred diseases.

ECZEMA and other skin diseases quickly cured.

PROSTRATIC ENLARGEMENT results from inflammation. I reduce the enlargement and have been able to cure about 90 per cent of the cases.

Fly Season is Open; Put in Your Screens

Doctors say the common house fly carries 100,000 germs around with it, leaving its trail of filth and disease.

Those who put in their screens promptly will be taking the best precautions against having disease germs introduced into their homes by flies.

There is no doubt that flies and other insects transmit these germs and that some of them find their way into food and drink, causing sickness.

By supplying your house with our Wheeler Screens and our Continental Screen Doors you can rest assured that you have used the best precautions to prevent these disease germs entering your home, office or store building.

Do not delay, but come and see us about it.

THE MARKETS

GRAIN AND PROVISIONS.

Chicago Market.

Chicago, Ill., July 13.—Wheat prices slumped sharply during early trading today, owing to selling, based on generally fair weather in the west and southwest, which will expedite harvest operations. Prices at the opening were ¼@⅝c lower to ¼c higher, with July at $1.19⅝ to 1.19¾. Before the end of the first half hour July had dropped to $1.19 and other options had declined about ½c from the high point of the day.

For July the low point was reached at $1.18⅝. In the final hour the market turned strong and prices advanced more than 1c on covering by shorts. July rallied to $1.20. The close was strong, July being up ½c at $1.20.

Liberal sales of the September delivery caused weakness in the corn market early in the day. July opened ½c lower at 72⅛c and sold off to 71⅝c.

The corn market rallied with wheat and July advanced from 71⅝c to 72¼c. The close was firm, with July unchanged at 72¼c.

Oats broke more than 1c in the price of the July delivery, due to profit taking. July opened ⅛c lower at 49⅝c and declined to 48½c.

Trade in provisions was extremely dull and the tone of the market was steady. Prices at the start were unchanged to 2½c higher, compared with yesterday's final figures.

STOCKS AND BONDS.

The Day on Wall Street.

New York, July 13.—The opening trading in stocks today was dull and the price movement irregular within a narrow range. There were simultaneous sales of 4,000 shares of United States Steel at 70 and 69¾, the former price being a record. Republic Steel advanced 5⅛. Wheeling & Lake Erie first preferred sold at a decline of 1½.

Sharp fractional losses were made in some of the active railroad stocks and Amalgamated Copper and American Smelting lost a point. Illinois Central and Wabash preferred rose strongly, but some other prominent stocks continued under pressure.

Prices weakened further, the decline going far towards wiping out yesterday's advance. Wheeling & Erie first preferred fell 3¼, the common 2. Amalgamated Copper 1⅝. American Locomotive 1¼. Union Pacific, Southern Pacific, St. Louis Southwestern preferred, New York Central, International Pump and United States Steel 1 point. Bonds were irregular.

The room traders stopped selling after midday. Prices, however, did not recover and the trading became very dull.

The market closed easy and dull. The tone was dull and drooping during the final hour. Virginia-Carolina Chemical dipped 3¼ on the announcement of t 3 per cent dividend and then fluctuated violently. Southern Pacific preferred, Colorado & Southern first preferred, Colorado Fuel, Hocking Coal declined 1.

LOCAL MARKET EPITOME.

Buyers of home-grown new potatoes are considerably disappointed over the quality of the stock thus far for practically all the tubers are small and of freakish shapes. The price paid for them remains at about the 70c mark. There is some butter being brought on the market, but the quality of that, too, is poor. Egg receipts are but fair, while chickens are very scarce. On the other hand, the demands for these articles are limited, so there is no particular place that is pinched.

Said G. H. Crouse, of the commission house of G. H. Crouse & Co., this morning. "The storm of Monday, which the farmers say, straightened out much of the oats and some of the wheat will keep the growers at home for some time, so that little can be expected in produce receipts for several days. We are not anticipating any decided changes."

Grain and other prices remained the same today.

HILL SEES GOOD TIMES AHEAD.

Crops Mean Much to Prosperity, Railroad Magnate Believes.

New York, July 13.—James J. Hill, chairman of the board of directors of the Great Northern Railway company, returned to New York yesterday from his Canadian fishing trip, and talked in an optimistic vein concerning business and crop conditions.

"There will be good crops," said Mr. Hill, "not bumper crops, but a good, round yield, comparing well with the average.

"Their money value will be larger than usual, for prices will be high. Corn is now selling around 63 cents in Nebraska and wheat at about $1.30 in Minneapolis. The time of low prices for grain has passed. A great deal of wealth will be added to the farmer's store by the sale of his crops this year.

"As for the business outlook, there is no menace ahead. Good crops bringing high prices will help the manufacturing industries. There should be a steady expansion in that line; probably it will receive some additional stimulus after congress adjourns."

DETECTIVE FOUND DEAD.

Laporte, Ind., July 13.—The dead and mangled body of Chas. Silverside, a detective for the Lake Shore Railroad company, was found today on the track west of this city. The detective had been watching freight trains and it is thought he may have been thrown under the cars by tramps.

Congressman Cline writes to promoters of the Wayne Memorial building here that the bill for an appropriation for the building can not be presented to congress at this session and that he will talk over matters when next he comes home.

A team of horses belonging to Frank Bogash fell into a 11-foot sewer in Forest park Monday. The lower horse alighted on his back and the other with his feet upon its mate. In order to extricate the animals, ropes had to be used and as the horses were drawn upwards sand filled in under them.

A. S. Keller, formerly a Fort Wayne man, but whose home for the past six or seven years has been in New York City, is on his way from the west to London, England, where he will represent an American Dental company. He has been recuperating from tubercular trouble for the past few months.

Carl Bauermeister, who is a member of the family living on the Lutheran college farm, is suffering from typhoid fever, being the second member of that family to have been attacked by the disease. An examination showed the water in the well to be polluted with typhoid germs and other cases are looked for from that source.

The contract for furnaces and changing the ventilating system in the Lakeside school was let by the city school board last night to William F. Carter and Sons. Lewis Bruner was given the contract to tint the walls of the high school and other routine repair matters were also disposed of. Besides looking over the specifications for the Washington street school, the board appointed Miss Marsh, of Brooklyn, and Miss Taylor, of Battle Creek, as instructors in the normal school to succeed Misses Brock and Alperman.

TWO-DAY CHICAGO EXCURSIONS.

Local Merchants and Railroads May Effect a Compromise.

The tenor of the letters from the three railroads running the three-day $2.00 excursions into Chicago read at the meeting of the Retail Merchants' association last night led the members to believe that at least a compromise is possible as two of the roads wrote that they were willing to make the excursions but two-day affairs, Sunday night to be the limit. The discussion of this matter occupied practically all of the time at the meeting and a settlement of some nature is likely to come about within a short time.

The association decided to ask the Indiana Lighting company to make certain repairs in the down-town streets which have been damaged by the laying of new mains. A premium proposition presented was turned down.

NEBRASKA ELECTION LAW VOID.

Superior Court at Lincoln Gives Decision in Test Case.

Lincoln, Neb., July 13.—After an all afternoon sitting yesterday the superior court of the state handed down a decision declaring the Donohoe nonpartisan judiciary election law invalid. The decree says:

"The majority of the court holding that the act is void, the judgment of the district court is affirmed."

This means that the election of judges of the supreme court, district courts, regents of the state university, county judges, and county superintendents by use of a separate ballot cannot take place. The old law will continue to hold.

The chief objection of the court was to the provision requiring that the 1,000 names to be on a petition for judge, not more than 500 of which could come from one county. They declared that it was a hindrance to the free exercise of the franchise, and was repugnant to the constitution of the state. Four of the six members sitting believed this provision formed the chief reason for the passage, and thus invalidated the whole act.

The entire court declared the provision denying the right of party conventions to indorse candidates for the offices affected by the act was without force and void.

The full court sat on the case with the exception of Chief Justice M. D. Reese, who is in Europe.

"DRY" SHOW IS A WINNER.

Alaska-Yukon Exposition Has No Liquor on Grounds.

Seattle, July 13.—That an exposition can be conducted on "dry" principles and at the same time conducted advantageously, is thoroughly demonstrated by the recipts and attendance of the Alaska-Yukon-Pacific exposition.

The grounds and buildings are well officered by an efficient police force, but their duties are confined chiefly to directing visitors about the grounds and supplying desired information. With the immense crowds drawn by special day attractions, there has been no scenes of disorderliness or brawling, and an arrest is practically unknown. In no way has the absence of liquor interfered with the regular business of the pay streak, and the concessionaries operating the best attractions speak of the orderliness of the crowds attending the various shows.

The convenience with which the entire exposition is arranged finds great favor with the visitors and the ease with which all points of interest are reached is practically commendable. Trans-continental travel is taxing the capacity of the several railways and the city is thronged with a constant changing stream of visitors.

CONSPIRATOR GETS 2 YEARS.

Convicted of Trying to Hide Property of Bankrupt Company.

Providence, R. I., July 13.—Two years' imprisonment and fined $2,500 was the penalty imposed upon Carroll H. Chapman in the United States district court today for participation in a conspiracy to conceal property of the Young & Holland company, bankrupt wholesale rubber dealers.

A two years' term for perjury also was imposed, but this is to be served concurrently with the conspiracy sentences. Chapman has already been in jail five months for contempt in failing to obey a court order, and six other men are serving terms in connection with the case.

ONCE WEALTHY; DIES POOR.

Farmer, Declining Charity, Spends Last Days in Infirmary.

Wabash, Ind., July 13.—Once one of the wealthiest farmers of Wabash county, owning several farms south of Wabash, Sampson Hoch, aged 70, is dead at the county infirmary, where he had been a public charge for fifteen years.

While quite wealthy he invested in a grist mill which proved unprofitable and he failed rapidly. While changing machinery he suffered an accident, which made him a cripple for the rest of his life.

Lack of business ability and his natural ailments soon reduced him to poverty, and as he had always lived aloof from relatives, declining charity at their hands, he was forced to enter the infirmary. He was probably the first in Wabash county to install the roller process.
